Ms. White,

I have yet to receive a response from you. Have you familiarized yourself with the evidence yet? If not, why not? Again, insisting that you speak with my psychiatrist is akin to insisting that you speak with my oncologist, pastor or interpreter: I do not have one. Allegations about my “mental illness” are nothing more than a construct; designed for character assassination and the marginalization of me.

Will you assign a new case worker as well as recommend to your executive director that the current CAS Application be withdrawn? If not, why not?

Deirdre

PS. Please confirm the contact information for the current executive directors of your organization and the Office of the Children’s lawyer.

Ms. White,

The files of the Children’s Aid Society of Ottawa (“CAS”) are rife with false information, errors and omissions. Obviously, evidence of this would not be within the file itself: it can only become clear once the contents of the CAS file is compared to truthful information.

Mohammed Said apprehended my children without a warrant when they were not in danger and then he colluded with the man whom I have been trying to divorce (Jonathan William Patrick Kiska born September 29, 1960, ("Kiska")) since 2013 to obtain a restraining order against me and rip me from the lives of my vulnerable children.* The CAS file simply circumvented the ELEVEN VOLUMES of evidence against Kiska that is contained in the divorce file. I suggest that you begin your analysis of our family's file with a review of the EVIDENCE in publicly available file FC-15-2446 (much of which is available here: <https://www.dropbox.com/sh/f5ynvf9p7fbvf/AAeXu3gyr6ui8wxBrdX5yla?dl=0>). Then, more information is available at <http://pfi.rocks/kiska-lies/>.

Currently, Kiska is refusing to e-transfer to me his fraudulently-acquired, court-ordered, below-poverty-level, spousal support of \$1,230/month which is now two months overdue. Kindly familiarize yourself with the original family law file and then assign a new case worker whom has the capacity to protect my children from their wicked, biological father.

Regarding the children's own "lawyer", Debora Scholey**: she is equally as guilty as Mohammed Said ... as is Isabelle Guindon. Moving Isabelle Guindon from our file does not eliminate her guilt of the harm that she has already caused by refusing to assign a new case worker when she had the opportunity. It is my view that she still has the responsibility to report the crimes being committed by employees of the CAS to Ottawa Police Services. Else, she simply adds to the number of counts of violation of Section 21(1) of the *Criminal Code* of Canada (Party to Offence) that she has already committed. This also applies to Kristin Moir and, of course, Tara MacDougall.

The status of my current "mental health"? I am currently free from the intense emotional and psychological abuse that has caused psychotic breaks in the past; therefore, my mental fortitude is excellent and I have developed enough resilience to deal with the nonsense that I receive from the CAS and other organizations and/or "groups" that need to be disassembled as soon as possible.

What is the status of your mental health status? Do you have a psychiatrist and/or a psychologist that I might be able to speak with to assess your current behaviour and/or motivations? If not, why not? Have you spoken with Mohammed Said's psychiatrist and/or psychologist? He clearly shows the characteristics of being a full-fledged sociopath who should in no way be working anywhere near children.

I look forward to your prompt reply.

Deirdre

*Then, Kiska violated the illegally-obtained, CAS-constructed, child-abusing, 20190408 court order by refusing to let me SPEAK to my children for MONTHS and when I finally violated the order to tell my children that I loved them, he LIED to police to have me IMPRISONED for MONTHS!

**The results of the four-month investigation done by the Office of the Children's Lawyer stated that sole custody be awarded to me: Ms. Scholey does not seem to even acknowledge that this investigation ever occurred!

PS. Who is the current Executive Director of the Children's Aid Society of Ottawa? Who is the current Executive Director of the Office of the Children's Lawyer?

PPS. Here is one of the affidavits that will accompany my upcoming Motion to have the current CAS application struck: https://www.dropbox.com/sh/2174dgjmm07vtjt/AABIKuWEOoAoxZ_Zhs7yHmA3a?dl=0. (For some reason, my lawyer chose to delay bringing this motion: perhaps, he knew that we would simply obtain more evidence for:

- a) the criminal investigation of and
- b) our civil action against

the CAS if we waited just a little bit longer. (Obviously, there is little point in being reunited with my children given the current operations of the CAS and its affiliates: any case worker can simply apprehend my children AGAIN without a warrant, illegally-obtain a court order, etcetera, etcetera, etcetera.)

Hello Ms. Moore;

My name is Kelly White and I am Mohammed's new supervisor. Please note that Ms. Guindon; nor Ms. Moir are no longer connected to your file and should not be cc'd moving forward.

I would like to acknowledge receipt of your email requesting a new worker and indicating that Mohammed has lied in court and acted inappropriately. I have had an opportunity to review your family's file and there is no evidence of inappropriate behavior contained within. As indicated to you by Mohammed in a previous email, we are happy, and welcoming, of hearing from yourself and your doctor (s) regarding the state of your mental health. We continue to want to work cooperatively with you toward addressing the protection concerns. It is my understanding that you have made requests that your children be returned to your care. In order for that to be a consideration, there does need to be conversations regarding your mental health status. As you stated, Mohammed "continues to purport that you have some kind of chronic mental health illness." It is important that we have clear and fulsome conversations with yourself and your professionals in order to be able to understand the state of your mental health currently. Please find below an excerpt from Mohammed's correspondence to you on April 15th, 2020;

Once we are able to understand how your mental health is doing at the moment, we can begin discussions about what sort of contact you could have with the children. As you know, they are represented by their own lawyer, Ms. Debora Scholey, and so part of that discussion would be understanding what the children would feel comfortable with. It could start with an exchange of letters and photos, for example. As you're aware, the children haven't seen you in over a year and so any contact with them would need to be gradual.

Given that I do not have evidence of Mohammed acting inappropriately, I will not be changing your worker at this time. Please also understand, that changing a family's worker can be very disruptive to the process and is avoided wherever possible.

Ms. Moore; I can only imagine how difficult it must be to be disconnected from your children. The Society would like to support you to addressing the outstanding child protection concerns and potentially help you to re-establish a relationship with them. However, in order to do this, it is critical that you speak with the assigned worker. I encourage you to do so as soon as possible.

With Warmest Regards;

Kelly White
Child Protection Supervisor

CAUTION! External E-MAIL...

Ms. Guindon,

Please assign to our family a new case worker. Mohammed Said is a pathological liar who:

- a) fabricates evidence,
- b) lies in affidavits and
- c) despite all evidence to the contrary, continues to purport that I have some chronic mental illness.

Please let me know when this can be done.

Thank you.

Mr. Said,

Your e-mail below (given the fact that you received the attached e-mail from me several weeks ago) indicates that you have no capacity to reason. I already know that you have absolutely no compassion. If you do not have the ability to reason and you do not have the ability to feel compassion, then you are more like a sociopath than a human being as discussed here: <http://pfi.rocks/human-beings/>. I believe that the only reason that you have not yet been arrested is, likely:

- a) further collection/analysis of evidence against you (and others like you),
- b) as people confess, the system is approaching full capacity which has slowed the law enforcement process,
- c) fine-tuning the penal code, as discussed here: <https://cdn.penalreform.org/wp-content/uploads/2014/04/death-penalty-terrorism-v3-web.pdf>, before you are formally charged,
- d) ensuring that there is enough capacity to deal with all of you in a timely manner and/or

e) assessing any changes made to the *Criminal Code* of Canada in terms of international practices.

If I am incorrect about you, then you would simply close the CAS file and return my children to me.

Hello Ms. Moore.

I am pleased that you are reaching out. I can assure you that the children are doing very well. They are currently doing their school work on line and their academic standings have improved. Cate has been consistently doing math tutoring which she loves and her marks in Math have gone up. At the end of each Math tutoring she used to go swimming. Before COVID-19 both children were involved in programs and activities in the community.

In order to discuss how and when you can become re-involved in the children's lives, we first need to be able to have a discussion about why the Society became involved, and how things are going for you now. Particularly, I would need to hear more about how you are addressing your mental health concerns. It would be helpful, if you are seeing a psychiatrist, psychologist, or a general physician. If you would provide consent for me to speak to that person so I can better understand how things are going for you currently.

Once we are able to understand how your mental health is doing at the moment, we can begin discussions about what sort of contact you could have with the children. As you know, they are represented by their own lawyer, Ms. Debora Scholey, and so part of that discussion would be understanding what the children would feel comfortable with. It could start with an exchange of letters and photos, for example. As you're aware, the children haven't seen you in over a year and so any contact with them would need to be gradual.

Due to current public health recommendations, I cannot meet with you in person to discuss the above. However, I would be happy to set up a telephone call or virtual video chat meeting, at your convenience. This would be much easier and productive if you are in town.

Please let me know when you might be able to discuss the above.

Thank you,

Mohammed Said.
