ORGANIZED GANG STALKING: WHAT YOU NEED TO KNOW

Organized Gang Stalking, also known as Gang Stalking, Cause Stalking, Organized Vigilante Stalking, Stalking by Proxy, Community-Based Harassment, and Covert War, are essentially harassment and discrediting campaigns waged against a targeted individual. Citizens and neighbors are recruited to participate, often from extremist groups and cults, but also from among employees. Coordinated psychological warfare attacks, consisting of stalkings, noise campaigns, sensitizing and the spreading of lies and rumors, are executed in an effort to virtually neutralize and destroy the victim using people from all backgrounds and vocations to harass, track 24/7, sometimes organizing lethal vehicle accidents, poisonings, electronic harassment, home invasions/property destruction, corrupt or ignorant doctor diagnosis given to stamp the victim as bogus mentally ill with delusions, paranoid, or schizophrenia, etc. Everything is done covertly. and with a sophisticated real time dispatching system to organize the criminals' harassments and attacks, often in the hundreds to thousands of criminals participating as a coordinated mob at any given time while the criminals do their normal routines of work, shopping, commuting to and from work, leisure, etc., using the method of moving foot and vehicular surveillance techniques, and computers, cell phones, verbal and visual cues, and every other conceivable type of communication. Often, the local network of this mob is connected to a national and international network when the target travels the local network will follow the target to the next city or town when the target arrives there, the networking that location will stalk follow and harass the target in that city or town. Organized Gang Stalking also known as organized stalking, community harassment community stalking is a systemic form of control, which seeks to destroy every aspect of a Targeted Individual's life. Using occupational health and safety laws, warning markers can be added to a target's file. Once a target is flagged, a notification is sent out, and the target is followed around 24/7 by the various communities that they are in. A covert investigation might be

opened, and electronic means used by the civilian spies as part of the covert monitoring and surveillance process. The citizen informants can be parts of these community oriented programs, but are often just average citizens. Everyone in the targets life is contacted, advised as to why the individual has been listed or flagged. Advised not to discuss the notification and asked to be a part of the ongoing, never ending monitoring (systemic harassment) process. This process is covertly designed to destroy the target over time, leaving them with no form of support. Since most civil workers are aware of this notification system, it means that targets reporting incidents of being followed around by various strangers should not have been unfamiliar to the police, and other agencies that targets reported their harassment to. In most cities this notification is well known, and used by many workers and employers. Yet Targeted Individuals have had to have mental health evaluations for making complaints about this structure, and the harassment that comes with it. Organized Gang Stalking is experienced by the Targeted Individual as psychological attack, that is capable of immobilizing and destroying them over time. The covert methods used to harass, persecute, and falsely defame the targets often leave no evidence to incriminate the civilian spies. It's similar to workplace mobbing, but takes place outside in the community. It's called Organized Gang Stalking, because organized groups or community members stalk and monitor the targets 24/7. see Gang Stalking Organized Stalking.

QUESTIONS AND ANSWERS

Does the word "Gang", as in Gang Stalking, refer to "Street Gangs"? No. The word, "Gang", refers to multiple people who organize/group together for a common purpose. What is the difference between Stalking, by a single perpetrator, and Organized Gang Stalking? All forms of stalking are physically, emotionally, and psychologically harmful to the victim. With regards to Gang Stalking, the abuse is particularly invasive as the victim is not able to distinguish friend from foe. The majority of the population is aware of cases such as "jilted lover as stalker", and can readily identify key features of such abuse. The little-known phenomena of Organized Gang Stalking allows the perpetrators anonymity and enables future victimization's, as stalkers are actually encouraged by the lack of repercussions. Please keep in mind that victims of Organized Gang Stalking have to deal with an

abuse engineered to make them appear insane should they complain to authorities. It is no wonder that victims of Organized Gang Stalking are far more likely to commit suicide than victims of individual stalkers.

IS ORGANIZED GANG STALKING ILLEGAL?

Yes! Despite what the leaders or members of Stalking and Harassment groups say or believe, all forms of Stalking and Harassment are illegal.

STALKING DEFINITION

Stalking can be defined as a pattern of repeated and unwanted attention, harassment, contact, or any other course of conduct directed at a specific person that would cause a reasonable person to feel fear. Stalking is against the law in every state. Stalking across state lines or in federal territories is illegal under federal law. A willful course of conduct involving repeated or continuing harassment of another individual that would cause a reasonable person to feel terrorized, frightened, intimidated, threatened, harassed, or molested and that actually causes the victim to feel terrorized, frightened, intimidated, threatened, harassed, or molested. A person who intentionally and repeatedly follows or harasses another person and who makes a credible threat, either expressed or implied, with the intent to place that person in reasonable fear of death or serious bodily harm is guilty of the crime of stalking.

HARASSMENT DEFINITION

Harassment means conduct directed toward a victim that includes, but is not limited to, repeated or continuing unconsented contact that would cause a reasonable individual to suffer emotional distress and that actually causes the victim to suffer emotional distress.

F.B.I. Title 18, U.S.C., Section 241 Conspiracy Against Rights

This statute makes it unlawful for two or more persons to conspire to injure, oppress, threaten, or intimidate any person of any state, territory or district in the free exercise or enjoyment of any right or privilege secured to him/her by the Constitution or the laws of the United States, (or because of his/her having exercised

the same). It further makes it unlawful for two or more persons to go in disguise on the highway or on the premises of another with the intent to prevent or hinder his/her free exercise or enjoyment of any rights so secured. Punishment varies from a fine or imprisonment of up to ten years, or both; and if death results, or if such acts include kidnapping or an attempt to kidnap, aggravated sexual abuse or an attempt to commit aggravated sexual abuse, or an attempt to kill, shall be fined under this title or imprisoned for any term of years, or for life, or may be sentenced to death.

THE GOAL OF ORGANIZED GANG STALKING

The expressed goal of Organized Gang Stalking is to silence a victim, drive a victim insane and possibly to the point of suicide, or destroy the victim's reputation and believability as the person will likely be viewed as mentally ill should they complain or report the abuse. To cause the target to appear mentally unstable is one, and this is achieved through a carefully detailed assault using advanced psychological harassment techniques, and a variety of other tactics that are the usual protocol for gang stalking, such as street theater, mobbing, pervasive petty disrespecting. Organized Gang Stalking is also used to gather information on individuals as well as force individuals to move or leave an area. Do the Stalkers ever question or check to see if a targeted victim is indeed guilty of a crime? No. There is an "assumption of guilt" among the stalkers. Also, remember that many stalkers are paid for their harassment, so these individuals are not concerned with the innocence or guilt of a victim. Assuming a victim knows the group that is behind their stalking, should they attempt to openly communicate with them? Absolutely Not! For one, the stalkers automatically assume the victim is guilty of an atrocity, and thus "deserves" the treatment. Second, many stalkers actually want the victim to engage them in some fashion. In these instances the interaction will be recorded and used as evidence against the victim, especially in attempts to suggest the victim is mentally unstable. If a charitable and respectable society practices Organized Gang Stalking on the side, should we assume the victims deserve such treatment? Absolutely not! When people take the law into their own hands, any notion of "law" is destroyed altogether. I should emphasize that the majority of Organized Gang Stalking victims are completely innocent of any crimes. Any group

that performs Organized Gang Stalking is not positive in nature, nor beneficial to society, despite any charitable works they may perform. Likewise, such societies only remain "respectable" because any and all evidence of "wrong doing" is conveniently destroyed or eliminated.

MOTIVATIONS FOR THE ABUSE

Motivations for Organized Gang Stalking vary. Revenge for a real or imagined offense, true or false accusations of a "horrible crime" of which the victim has gotten away with, silencing a corporate "whistle-blower", defecting from a cult, a perceived enemy of a group or organization, and "knowing too much" are all examples of possible motivations. Due consideration should be used as the motivations of the stalking and harassment groups are in no way limited to the above.

WHO ARE THE STALKERS?

The stalkers, for the most part, are everyday citizens. Other stalkers are "street thugs" who have been recruited or hired to harass and intimidate. Some Stalkers are actual Private Investigators who have been hired to gather information concerning the victim. Many stalkers are members of volunteer police groups.

WHY PEOPLE PARTICIPATE IN GANG STALKING

Some stalkers are told lies, either positive or negative in nature, in order to gain their participation. Some stalkers are paid or receive other benefits. Stalkers belonging to an organization may simply be following orders. Some stalkers may use their participation in order to repay a past favor. Racism, Prejudice, Homophobia, or otherwise Hatred of a victim Peer Pressure/ Need to Fit In. Former stalkers have stated they participated out of fear of becoming the next target should they go against the group. Entertainment Value/Thrill of Participation in an Illegal activity. Some stalkers mistakenly believe it is their civil duty.

WHO, OR WHAT, IS ULTIMATELY BEHIND GANG STALKING?

Corporations, Government Organizations, Military/Air Force, Some Police, Corrupt Cops, Societies/Fraternities/Orders, Religious Cults and Destructive "New Age"

Groups, "Concerned" Community Groups/Vigilante Groups, Criminal Organizations, Volunteer Police Organizations, etc.

EXAMPLES OF ORGANIZED GANG STALKING HARASSMENT

Slashed Tires, Threatening Phone Calls, Verbal Assaults by Strangers, Property Damage, Death Threats, Following on Foot or by Vehicle, Bizarre Notes and Drawings Left, Loitering, Anonymous False Accusations to Friends, Family, and Neighbors, Character Assassination, Smear Campaigns, "Black-Listing", Psychological Abuse, etc.

TACTICS AND METHODS USED BY THESE ORGANIZED GANG STALKING AND HARASSMENT GROUPS

The following techniques are several types that are often used against Targeted Individuals. There are other techniques used, but these are some of the primary ones.

ANCHORING

Anchoring is a technique employed by stalkers to implant a false motivation or reason behind the stalking preventing the victim from discovering the truth. In more sinister examples, Anchoring involves the implantation of evidence to persuade the victim some other group or organization is responsible for the abuse. Anchoring <http://en.wikipedia.org/wiki/Anchoring>. In Organized Gang Stalking, Anchoring is used to make the target have fear with things happening in your daily life that's considered to be normal. That can be done with frequent demonstrations. The key is the frequency just like other Organized Gang Stalking methods. For example, People show you a pen every where you go, and their attitude is rude or crazy against you. You don't know them. You just wonder what's going on. Imagine that happens everyday, for a week, for a month, for a year, then, that makes you have fear with a pen. In this case, a pen is ANCHORED with your state of fear. It can be anything. An open car door or trunk, a pencil, a cell phone, notebook computer, a medical mask, clothes of the same color, anything. Every time I go somewhere during the day, an anchoring threat is made by car or truck with a

door(s) or trunk open and no one in it sitting in someone's driveway along my route. This is a sign to get out!

AIR STALKING

This is when helicopters or planes are used to track targets that are on foot, or in cars. They fly over head and follow the targets from one location to the next. Some will monitor the targets shortly after they leave their homes.

BAITING/ENTRAPMENT

The term Baiting is a stalking tactic used to lure a victim into environments, or situations, which cause further problems to the victim. Often Baiting involves tricking a victim into committing a crime or unknowingly engaging in an illegal activity. To lure into dangerous, difficult, or a compromising situations. Members of these Organized Stalking and Harassment groups will try to lure targets into various situations for the sole purpose of setting them up. Setting up targets could involve getting them arrested, institutionalized, set up on fake sexual harassment charges, drug charges, illegal pornographic materials, etc. Once this happens, it put's targets at risk for entrapment into becoming members themselves.

BRIGHTING

Brighting is shining or flashing bright head lights on targets As targets walk on the street, usually at night, members of these Organized Gang Stalking will turn on their high beams. This might be flashed once or twice at targets. This might be used to let targets know they are being watched, however these signals might also be a way for Informants in cars at night, to communicate with their fellow counterparts. The foot patrols will then communicate back to the Informant in the car, using a combination of hand signals you will see members of these groups riding around during the day with their headlights or hi beams on. The victim is usually followed and may be "flashed" from either a "tail-gating" vehicle or a passing or on-coming one. "Brighting" also occurs when bright lights are flashed into a victim's home-windows.

CAR ACCIDENTS

Targeted Individuals complain about being cut off, driven off the road, and near fatal or fatal car accidents. Pedestrian targets complain about cars that consistently cut them off, being hit by cars, and other almost near mishaps.

CROWDING / MOBBING

When the target is in public, members of these Organized Gang Stalking groups will usually try to box the target in. Eg. They will surround the target in a square like formation if possible. They will stand too close to the target, or swarm them. QUOTE "We experienced being mobbed by vehicles from CT NY and NJ at the beginning of our trip. Some of the gangs talkers were couples with their children along! Some smirked at us and showed weapons to us through their windows, though none actually fired upon us".

COLOR HARASSMENT

Color Harassment is literally the use of color to harass a victim. Usually, monochromatic color schemes are used, though this choice is pretty much up to the stalkers. An example of Color Harassment would be a line of stalkers, in red shirts, circling a victim. Color Harassment is often combined with other stalking tactics.

CONVOY

Convoy is a tactic of stalkers referring to the practice of a group of "tail-gaiting" cars passing repeatedly in front of the home of the victim. Vehicles used may be of the same color, and stalkers may honk the car horn or flash the car headlights as they pass.

CYBER-STALKING

Cyber Stalking or Cyber Harassment is a related group of harassing behavior occurring via internet/online. Cyber Stalking includes, but is not limited to; Computer Hacking, "Trolling", Spamming (Often including "Porn Deluges", Verbal Assaults, Character Assassination, and Impersonations of the victim. Online harassment is a plank of the harassment protocol. If you have a website devoted to Organized Stalking you may have people emailing you to flame you, or claiming that they are victims & asking for support with the intention of discrediting you.

You may receive unsolicited email that parallels a current event in your life. Again, surveillance is used primarily for harassment. Or you may receive covert insults & threats. If you join a support group, you may also receive harassment via threads posted on message boards. Like other mediums of harassment, the topics of these threads may be about events that are unfolding in your personal life, as well as threats or insults covertly directed at you. This will probably happen repeatedly by the same person or people. They may also employ some Gaslighting, or Jacketing tactics. Jacketing was often used during Cointelpro to make genuine activists look like informants. Some internet groups which help stalking victims are heavily populated with perpetrators posing as victims. Some of these perpetrators seem to be very vocal & popular members of these support groups.

DIRECTED CONVERSATIONS

Directed Conversation is a term referring to a stalking tactic using stranger's conversation to both intimidate and to convey to the victim that they are under surveillance. During Directed Conversation, two or more stalkers will approach near to the target and engage in "normal" conversation with one another. The conversation is purposefully made at a level so that the victim can adequately hear what is being said. During Directed Conversation, personal information concerning the victim is inserted into the speech and emphasized by the stalkers in a fashion that most non-victims would not be able to discern as harassment. The purpose of Directed Conversation is to harass a victim, as well as make the victim appear mentally unstable should they attempt to complain about such abuse. These are conversations that complete strangers will have out in public relating to the target and their personal situations. Eg. They will repeat things a target said in their home, or on the phone. They will drop very personal details into the conversation, that could only be related to the target. Eg. Member #1. It's a shame Uncle Ed won't be able to come. Member #2. Yeah since he died golfing on Saturday. The target will just have learned of a death of a favored uncle, (possibly named Ed.) while out golfing.

ELECTRONIC HARASSMENT

Electronic Harassment is the use of technological devices to spy on or cause harm to targeted victims. For example, exposure to a high magnetic field has been shown to induce hallucinations in humans while exposure to intense microwave radiation induces psychotic episodes and causes brain damage. A frequent form of Electronic Harassment involves beaming a low frequency "hum" or "tone" into a victim's home or general area. Over time, the exposure causes the victim to lose sleep, become agitated, and suffer the effects of prolonged stress. Such tactics are also being used in cases of hostage situations as well as covert government operations. Electromagnetic weapons and frequencies will be used on a target on their homes. The purpose of using the EMF (Electromagnetic Frequency) on targets and their belongings are multifaceted. Electronic frequencies can destroy electronic equipment. Electronic frequencies can be used for monitoring and tracking inside the home, and at work. It can also be used for purposes of sleep disturbance. When those conducting these covert investigations feel that they have psychologically destroyed the target to where they are near breakdown they will start to use these weapons. They will also use these weapons if targets are not going along with their harassment protocol. Electronic Harassment http://en.wikipedia.org/wiki/Electronic_haras... Michigan Legislature Acknowledges the Existence of "Harmful Electro-Magnetic Devices" <http://www.targetedindividuals.com/subliminal-acoustic-man.../>

FAKE CREDIBILITY REPORTS

Fake Credibility Reports. fake credibility reports are being used to subtly discredit and attack legitimate websites regarding Organized Gang Stalking, including the Gang Stalking World website. Under the guise of doing good for the community. www.gangstalkingworld.com

FILES

It has been indicated that targets will have warning markers placed against their files. The information is then shared with relatives, store keepers, friends, and the community at large. The files are usually not left behind, but they are used to prejudice and slander individuals against the target. These files can be used to engender the corporation of friends and associates of the targets. The files might have a

picture of the target, and information about some alleged crime, incidents, that the target has been flagged for, or is under investigation for. The information is usually very convincing and helps to further get targets harassed by those around them.

GAS LIGHTING

Gas Lighting is a Psychological technique used by members of these groups. The purpose of Gas Lighting is to make a victim question his or her sanity. Doing little things to try to make the target think that they are going crazy. Gas Lighting simply is trying to convince someone that they are crazy or "imagining things". Example if you mention Organized Gang Stalking to someone who knows about it and they tell you you're crazy or paranoid they ARE Gas Lighting you. The term Gas-Lighting originates from the 1944 film Gaslight. In the movie, the character of Gregory Anton, played by actor Charles Boyer, attempts to drive the character Pauline, played by actress Ingrid Bergman, insane. The phrase Gas-Lighting has come to mean similar actions and behavior, as used in the film, against a victim.

1944 Gaslight starring Ingrid Bergman

http://en.wikipedia.org/wiki/Gaslight_%281944...

GHOSTING

The term Ghosting refers to the practice of rearranging, or moving, of a victim's home furniture, lawn decorations, desk decorations at work, etc. The purpose of Ghosting is to make a victim question his or her sanity. Ghosting is also designed to make others question the sanity of the victim, especially if the victim attempts to complain of the abuse.

GESTURES

Hand Gestures such as intentionally touching hand to face or bringing fist or hand to face while around person being targeted. Arm Gestures which involves members of these Organized Stalking and Harassment groups repeatedly driving by a targeted victim's location or home holding their arms out of vehicle windows, usually in an unnatural awkward low position. As part of the Organized Stalking crime, victims are being daily subjected to and psychologically harassed by manip-

ulated individuals participating in this intentional bizarre Arm Gesture harassment. It is a known fact that the individuals involved in the Organized Stalking and Technological Harassment crime syndicate are also involved in Criminal Racketeering/Sexual Exploitation/Human Trafficking Operations via the criminal utilization of Remote Neural Monitoring satellite technology, where these criminal individuals are illegally profiting (Racketeering) off of the technological Sexual Exploitation of victims. In some cases, these Arm Gestures are being utilized as a male masturbation sexual harassment reference that is designed to sexually harass and degrade targeted victims. It should also be importantly noted that female victims also report being harassed in a similar manner by individuals involved in the harassment by placing their fingers in their mouths while around the victim which is meant to be a female masturbation reference. The fact is the manipulated individuals involved in the Organized Stalking crime repeatedly and deliberately convey things to victims through symbolic references and numbers, which is also an attempt to cause targeted victims to falsely appear to be exhibiting signs of paranoid schizophrenia such as 'delusions of reference' when victims attempt to explain that they are being harassed by individuals holding their arms out of vehicle windows or making other gestures to them. The Arm gesture harassment has been continuously documented by victims and uploaded to the internet.

ILLEGAL SURVEILLANCE

This involves setting up audio and some visual surveillance of the target. Bugging the targets phone. Surveillance in the targets residence Listening to cell phone and hard line conversations. Hacking into their computers and learning all about what the target is doing, sites they frequent. or planting things, This also helps to build a profile of the target, and it's also used for later psychological attacks against the target, via Parroting and Directed Conversations.

Examples Of Illegal Surveillance

Illegal Criminal Electronic Monitoring

Illegal Criminal Phone And Computer Taps

Illegal Criminal Remote Neural Monitoring

MIMICRY

Mimicry or mirroring is a specialized form of harassment in which the stalkers publicly imitate every movement made by the victim. This is trying to copy things in a target's life. Leaving when they do. Dressing like they dress. Throwing out the garbage. Going to the bathroom. Doing whatever the target is doing. This is all designed to be psychological warfare, so that the target again feels like they are under observation at all times.

MOBBING

Mobbing is a term that describes "Group Bullying". Of itself, Mobbing is not equated with Gang Stalking. However, Mobbing may be a tactic used by the perpetrators of Gang Stalking. Mobbing <http://en.wikipedia.org/wiki/Mobbing>

NOISE HARASSMENT CAMPAIGN

A Noise Harassment Campaign is an orchestrated effort to produce stress in a victim through prolonged exposure to significant noise levels. A Noise Campaign can range from multiple neighbors routinely playing loud music, individual stalkers with air-horns or fireworks, or organized "repair work" that involves a high level of noise. This will include anything from Loud vehicles, Loud mufflers, doors slamming above you and below you. Garbage disposal slamming doors, Hammering intentionally slamming car doors loudly, loud stereos, stomping, at specific times, loud coughing, pots slamming, water running, cupboard doors being slammed, fridge motor running all night, power tools, etc.

NUMBER HARASSMENT

Number Harassment is literally the use of numbers to Harass a target and victim, This can include the brainwashed members of these cults driving by a victim's home at a certain time, exiting or entering the neighborhood at a certain set time, or performing a Harassment task or skit, at a certain time of the day or night, for the purpose of harassment to the target and victim. The Number Harassment may be done in synchronicity with other members of these cults, For example a member of the cult arrives home at 7:07 in the afternoon and another member of the

cult leaves at 7:07 at the same time, The next morning, one of the same members of the cult leaves home at 7:07 followed by another member of the cult. The individuals that belong to these cults are using local police 10 ham radio codes, to harass and to convey harassment related themes to the individual being targeted for years at a time, the only logical explanation that can be drawn as to why these brainwashed cult members are using local police 10 codes to Harass other citizens, is that they have been deluded into thinking that they are somehow police, the idea behind the Number Harassment, is to get the individual being targeted sensitized to certain numbers, so that they can be constantly Harassed by use of these numbers. Most importantly the members of these cults have already been sensitized, conditioned, and brainwashed to these specific numbers, and are constantly looking to their watches and clocks, to see what the time is, in case they have a Harassment skit or order to perform at a specific time of the day or night, that has been passed to them by their criminal leader and organizer via a cell phone text. that's correct these cult members are actually being given a Harassment task and Street Theater Scripts to perform at a certain time of the day for the purpose of Harassment to another individual, despite the fact that the individual being targeted can easily document this Harassment and Cult behavior using a video camera with a date and time stamp, and sue the individuals for damages of Harassment and Emotional Distress.

SENSITIZATION

Sensitization is a psychological term referring to the forced association between a stimuli and a corresponding reaction. Members of these groups use Sensitization to psychologically abuse a victim. For example, if a stalker constantly harasses a victim while wearing a blue baseball cap, then overtime the victim will begin to believe anyone wearing a blue baseball cap is a stalker and is coming to harass. Sensitization This is getting targets sensitive to an everyday stimuli. Eg. Colors, patterns or everyday actions. Eg. Red, stripes, pens, whistles, loud coughing, clapping, waves, keys jingling. Eg. Joe will be mobbed at work and as part of that daily mobbing his coworkers will loudly cough at him every time they harass him by calling him names like loser, worthless, lame, demented. They will slander him and have others as they are slandering him show disgust by glaring and coughing

at him. Out in public they will follow him loudly and obnoxiously coughing at him. When he goes to stores they will get others to do the same. After months or years of this, Joe has become sensitive to this stimuli and it can be used to harass him without the names and the glaring looks. The association has been formed because of all the other harassment. Eg. A girl is sexually assaulted and a sock is shoved in her mouth during the assault. To keep her quiet or stop her from pressing charges, the assailant, his friends and family will follow her around and throw socks in her path, mention it everywhere she goes and show her their socks every chance they get. She will get the message they are sending. Because of the brutal attack, she and what's happened after she is now sensitized. Sensitization undoubtedly creates an extreme level of fear in a victim, in direct fulfillment of the intentions of the stalkers. Sensitization <http://en.wikipedia.org/wiki/Sensitization>

STREET THEATER

Street Theater is a term used to describe the odd-actions and behaviors that stalkers sometimes neighbors do in public, in an attempt to rile the victim. Such behavior often borders on the extremely bizarre and is aimed at a blurring of the boundaries between reality and fantasy in the minds of the victims. This is running into people that are acting very unusual, or people that are putting on a show or production, known as street theater. Eg. This could be as minor as public rudeness, or people acting out a harassment skit. There will usually be someone nearby to see how you react to it. This is again looking for weakness or reactions. If you show an adverse reaction they will try to embellish on this and use it against you later on. Street Theater is Harassment skits done by strangers and neighbors who have been 'recruited' into these Stalking and Harassment groups. Examples of Street Theater: Baiting, Brighting, Color Harassment, Convoys, Directed Conversation, Ghosting, Mimicry, Noise Campaigns, etc.

SYNCHRONIZED HARASSMENT ACTIVITIES

Synchronized activities refers to the synchronized activities done by members of these groups to Harass a target which may include but not limited to neighbors arriving home at the same time or leaving home at the same time, or strangers or neighbors leaving or arriving home at the same time. E.g. One neighbor leaves his

or her house at the same time another neighbor arrives home . E.g. 2 A neighbor arrives home and at the exact same time a complete stranger or pedestrian walks by a targets home. This synchronized activity is one of the main techniques used in harassing a target and is repeated. E.g. 3 A target leaves his or her home at the exact same time a neighbor who has been recruited into the harassment leaves their home followed by a airplane or helicopter flying overhead.this synchronized harassment will turn into a pattern and may include the use of numbers such as 2 neighbors arriving home At 3:13 and 2 other neighbors leaves their home at 3:30, the same neighbors arrives back home at 3:43. Synchronized Harassment Activities can be done with almost anything: Neighbors arriving/exiting at the same time aircraft flying overhead as neighbors are leaving or arriving home, Harassment telephone calls made to the targets home just as neighbors who have been recruited into the Harassment are leaving or arriving they key to this is timing and frequency. The main motivation behind Synchronized Harassment Activities is again that if the target complains about this type of Harassment he or she may be perceived as mentally ill.

HOW THESE STALKING AND HARASSMENT GROUPS COMMUNICATE

SIGNALS AND SYMBOLS

Communication happens in a number of ways. When on the street or in cars patrolling, they use baseball or Stasi like signals. These include things like tapping the side of the nose, corner of the eye, brushing back the hair 3 times, the infamous double blink, etc. Members of these Organized Stalking and Harassment groups will also communicate with each other on the street by using signals. Below are some examples.

SIGNALS FOR OBSERVATION

1. Watch out! Subject is coming - touch nose with hand or handkerchief
2. Subject is moving on, going further, or overtaking - stroke hair with hand, or raise hat briefly
3. Subject standing still - lay one hand against back, or on stomach

4. Observing Agent wishes to terminate observation because cover threatened - bend and retie shoelaces
5. Subject returning - both hands against back, or on stomach
6. Observing Agent wishes to speak with Team Leader or other Observing Agents - take out briefcase or equivalent and examine contents.

SLANDER

They will go behind the targets back and tell lies about them. Often the lies will consist of the target being into something illegal, or is someone dangerous, or just needs to be watched for some vague reason. Eg. They will say the target is a prostitute, drug dealer, crazy, terrorist, racist, pedophile, etc.

SLEEP DEPRIVATION

Noise Harassment Campaigns Depriving the target of sleep is a really good way of leaving the target stressed out. It's also a way of leaving them disoriented and functioning at less than 100%. Then the targets can be baited into reacting in public, or getting into a car accident.

TELEPHONE REDIRECTS

When you make a telephone call, get the name and ID of the person that you are speaking to. Covert Investigations have redirected phone calls. This means that when you dial a number they will intercept that phone call and pretend to be the service or repair person you were trying to call. Eg. If you call the cable company, gas or phone company be sure you know that it's actually them that you are speaking to. Also remember that telephone companies and other businesses are often infiltrated by these Organized Gang Stalking and Harassment groups and can be used to harass and cause the targeted individual problems.

WRONG NUMBER CALLS

Targets will daily get wrong number calls. These can be automated or they can be persons pretending to be wrong number calls. Members of these groups will use

this as a means to monitor and psychologically harass targets. They want to know where the target is at all times.

(VARIATIONS OF GANG STALKING)

CONSUMER STALKING

Consumer Stalking is harassment and abuse directed at a consumer who has either filed a complaint against a company, filed a lawsuit against a company, or who is made aware of illegal activity occurring within a company. Often companies will fund stalkers simply in an attempt to prevent the victim from filing a lawsuit, via using fear and intimidation tactics. Consumer Stalking can also be used to describe certain illegal activities of debt collectors.

CORPORATE STALKING

The term Corporate Stalking refers to a particularly severe form of Gang-Stalking, where a corporation actually provides funding toward the harassment and abuse of a targeted individual, usually someone who is a "whistle-blower", a perceived "problem employee", or else an employee who has witnessed illegal activity occurring within the corporation. The most sinister, and downright evil, tactic used during Corporate Stalking is forcing the victim to see the company psychologist. In most cases, the company psychologist is made aware that the victim is a "dissident" and a threat that needs to be eliminated. A false diagnosis of "general psychosis", "schizophrenia", or other mental illness is made, as well as a recommendation of institutionalization.

Corporate Cyber-Stalking http://www.firstmonday.org/issues/issue7_11/b...

Corrupt Company Psychologist Information <http://www.psychologistethics.net/>

INTIMATE INFILTRATION

This is where members of these groups will go out of their way to get into a targets life. They will try to form friendships with targets. They will try to form intimate relationships with targets. They will get close to people that are affiliated with targets. Years before the target ever realizes they are targets they will try to get into a targets life. Eg. If they can't get into your life, but you have a best

friend, their new significant other might just be a member of the group. The same goes for siblings and the people that enter their lives.

ISOLATION

For this harassment to be successful, it's important to be able to isolate the target from friends, family members, co-workers and even spouses if they are not already involved in the harassment. To accomplish this isolation many methods are used included, but not limited to: slander, lies, fake files, sabotage, anything that will get the target into a situation where they have no support system. This is important for them to succeed.

PROFILING

Targets will be observed and profiled long before they ever become aware that they are targeted by this sort of harassment. Profiles will be created on targets by: Following them. Following people close to them. Breaking into their homes and going through their stuff. Listening to their calls. Hacking into their computers. Gathering information from friends, and family. Seeing where they like to shop and eat. What are their weaknesses? What things do they like and dislike? What are their weaknesses? What things do they like and dislike? What can you bribe them with? What can you blackmail them with? How can you bully them? How can they best be controlled? This will all be used to put together a profile of the target and then to get them into situations for their detriment.

RANDOM ENCOUNTERS

This will be people on the street who you randomly and unexpectedly run into. It looks completely natural and it seems to be a random encounter. They might ask for your phone number after engaging you in conversation. Ask you out, or just ask you where you are going. Anything from small talk to lengthier conversations. All with the purpose of finding out something about you, or even just getting you to do something.

RUINED RELATIONSHIPS

When targets are in a relationship, the members of the Organized Gang Stalking group will try to ruin that relationship. This could be friendships, family or significant others. If it's a romantic relationship, they will find out what your significant other likes and try to get them to cheat, or leave you. If it's a friendship they will tell lies to come between you. The same goes for family. This is done so that targets will have no means of support, once they do realize that something is going wrong in their lives. When this Mobbing continues out in the community it is called Organized Stalking. Organized Stalking is Mobbing that takes place out in public. Deception using lies about the target appear to be the most common method used to get citizens to participate. Specifically, smear campaigns using bogus investigations. Furthermore, it is likely that they take advantage of existing federally sponsored mechanisms, such as community crime watch or community policing organizations, senior citizens organizations, & religious groups, & use them as unsuspecting instruments in their retaliation campaigns. Many people across the country have reported being harassed by these community groups. Some of these people they're using think they're doing a community service. This is a very well funded & organized service/cult that is apparently condoned or even run by the state. The perpetrators of Organized Gang Stalking are serious criminals who do great damage, and the acts done are very serious crimes by any measure. Organized Gang stalking is a highly criminal campaign, one directed at a target individual, and one that aims to destroy an innocent persons life through covert harassment's, malicious slander and carefully crafted and executed psychological assaults. Organized Gang Stalking deprives the targeted individual of their basic constitutional rights and destroys their freedom, setting a stage for the destruction of a person, socially, mental and physical, through a ceaseless assault that pervades all areas of a persons life.
