

June 2, 2019

Dear Artist,

I intend to speak at the Annual Psychiatric Association's 2019 Conference in New York in October where I plan to introduce, among other things, the importance of music in Introspection-based Therapy.

My question to you is: would you be interested in becoming a Board Member for my new initiative? If so, please forward your letter of interest\* to me by e-mail to [dw.cceh@icloud.com](mailto:dw.cceh@icloud.com), [dw.cceh@outlook.com](mailto:dw.cceh@outlook.com) and [dw.cceh@yahoo.com](mailto:dw.cceh@yahoo.com), before June 15, 2019. If not, feel free to forward my request to someone whom you feel might be interested.

Thank you for your time.

\*Your letter of interest should describe humanitarian and/or charity-based experience (past and/or present) as well as an indication of whether or not you feel that, through your music, you speak to any of the following groups: video game addicts, alcoholics, drug addicts, ex-convicts, victims of abuse, veterans and/or other victims of current societal norms.

I intend this enterprise to be called People First Incorporated. We will help good people and smart companies.

We will be funded by donations from victims whom we have helped to win lawsuits in order to receive compensation for their suffering. In turn, we will use this money to invest in people and companies who are deserving.

Organizations that make poor decisions, lack ethics and/or, in our view, make poor investments will be exposed. For example, we believe that Alphabet (previously known as Google), Spotify, Amazon, Verizon and Apple have made a stupid decision: offering unlimited copies of songs and albums will likely upset the musical artists that they have chosen to profit from. Consequently, none of them would be on our buy list: they would all be on our sell list. Also, we do not support companies that completely ignore their shareholders:
