DG – what's been going on with you and ex
JK – she's changed her name a few times in past month.

DG – been other incidents since June incidident, what's happened since June 27th?
JK – believe it was a Wednesday she was arrested, she was released on the Thursday morning, on the Friday she was communicating through email and text and LinkedIn post, she was spending weekend in Toronto, she got thrown off the train to Toronto in Kingston, she travelled throughout USA for next 2 weeks,

Kids were ok during the as told kids she was in USA, she had been there April/May/June, their stress and anxiety reduced when she's away, now about a week or 2 ago she arrives back in Ottawa, on top of all this in the restraining order there's limits of her being with in radius of house and school, there was a scheduled visit at CAS, she was early, she created a disturbance, police called, I arrived with kids at scheduled time, spoke to CAS supervisor, was told she was recording, I told them concerned she's video kids, supervisor told her no phone, she got mad, there was no visit, CAS told her she's done and not getting another opportunity to see kids as she didn't follow the rules

Pg 35/49
LN 21
EO p 35

"now only opportunity is to break the order",

I get emails every day now, up to 48 hours ago she was posting on LinkedIn, that's down now, some videos down off Youtube now, despite the illness she loves her kids, in her mind she's protecting the kids from me,

" on that Friday night she breaches the order,
breached on Saturday night ...
on Sunday she was there and left packages ...
that was last weekend, now again this morning.. "

↓ "breaches of order"

friend in house gave a statement to police, incredible anxiety with kids, they love their mom, they're 13 and 11, they know it's not really Mom, developing understanding, but enough is enough, this isn't normal.

DG - not sure at moment if criminal charges or not, explains DV mandate, if deemed not DV then some discretion, statement voluntary, continue?

JK - Yes.

DG - so she stopped having contact around Feb, order granted in April

JK - March I think, when they took the kids she kept coming to the house, there was no order then, order part of temporary sole custody

DG - up to June, there was a reprieve?

JK - she wasn't here, early March she leaves Ottawa, she goes to Quebec City at first, then Valleyfield, that's where she was arrested, not clear if RCMP or Quebec police, 4 AM she's driving, they want her to stop, she doesn't stop, she goes to Valleyfield court and

PG 36 LN 20 "right away sent for a psych evaluation"

she gets out and she's in Laval prison for 4 or 5 weeks up to her trial, March into April, 2 months she's not here and

LN 22-23 "not able to communicate with me or anyone", *

trial happens and found not guilty, she gets out and travels to USA, she flies to UK, she flies to Moscow for a day and a half, she flew back to west coast, drives across country, back to Canada early June, that visit with CAS that didn't happen and then travelling to USA.

DG - you maintain communication generally?

JK -

LN 28-30 "don't communicate back with her anymore, I get the 6 or 8 emails or texts, I have a lawyer to deal with family court matters, no point in trying to communicate with her"

Sean * Cate? Order?

* Nonsense: Attended March 14/19 trial by video-conference, messages to children, spoke to his sister, messages for landlord, etc., etc.

DG - what happens the Friday she breaches?
JK - it's a Friday / Saturday (looks at his phone), the Saturday Cst. Cunningham shows up, banging on the door screaming, me and Sean at home, he realizes she's there and comes to me, we go into my bedroom and call 911, by the time police come she's gone, when taxi leaves the first time it comes back a few minutes later, was the taxi driver

Pg 36 LN 36-37 "delivering a few packages for the kids"

DG - she shows up when?
JK - on the Saturday about a quarter to 10 or so, it's late, PM

DG - how do you come to realize she's there?
JK - my son realizes

LN 41 "dog starts barking", ← Moore's dog!

Sean looks and it's Mom at the door

EO Pg 36

DG - what is she doing?
JK - I didn't have a visual, he came to me in bedroom, we didn't engage and stayed there, she was screaming and yelling, can't recall what it was, probably something nasty about me.

DG - what drove you to stay in bedroom?
JK - safety plan with CAS, doors locked, don't engage, trying to keep son away from seeing her, trying to be safe

DG - how long was she there?
JK - probably less time than the first night, 4 to 5 minutes

DG - what happens Friday?
JK - it's earlier, I get email messages maybe 5, then 6, she asks for pictures of the house as she has it for sale on Kijiji,

pg 37/49
LN 12-13

"we both own it so she can't do that";

then 8 or 8:30 a yellow cab shows up, my son sitting in the kitchen playing computer* games, she's in the backyard taking pictures of the house, same thing, we go into bedroom and call 911, screaming and yelling, banging on door, [door bell], maybe 7 minutes, cab leaves,

LN
16-17

"Cab comes back and leaves [Friday night treats]..."

Saturday morning I google taxi info as Ottawa doesn't have yellow cabs, was advertising from Niagara on side.

DG - how long?
JK - about 7 minutes

* $3,000 computer gear that Moore bought for son!

DG - Sunday?
JK - email from PAUL HUNSBERGER neighbour, that

LN
22

"She dropped 2 packages off [for kids]",

walked with dog and went and got them, been on high alert everyday this week.

6/10

DG - house # she dropped ?
JK - have to check

DG - between then and today? any communication?
JK - texts, emails, she called last night, I was sleeping, that's where she starting talking about firing squads and death penalty, same to my sister last night, <reads paper>, she wants death penalty and us to be shot by firing squad, similar message to me and to family friends, willing to talk to police.

DG - time call to you?
JK - I answered it, 6:09 last night, no other calls last night, 6 or 7 emails.

DG - emails on phone
JK - yes

EO 37 of 49

DG - Today?
JK - yesterday the kids biked to summer school on Fisher Avenue, I knew she was going to court today, wanted them to bike to school but felt too risky as good chance she'd come to house after court, I went to work,

pg 38/49
LN 4-5

"got a text from a friend at 10:10 ← impossible
saying to call 911 as she was there";

I called...

Moore was at Municipal Court!

JK - also called a neighbour a few doors down, he "went", he spoke to her [about construction on Villa Crescent], he went back to the house, Felt I should go home, went home, police still not there, I drove to kids school and waited for them to get out at 11:30, we went and ate

DG - how does this behaviour make you feel

JK - hostages in our own home, kids don't want to go outside, kids don't want to walk dog, they are anxious, they are worried, Kate said she'd like mom to stay in Texas, daughter understood mom's illness earlier on, son taking longer to accept what's gone on in family, he's shifted with recent events to understand Mom's not well and likely not go[ing] back to live with her

pg 38/49 LN 11-14

EVIDENCE OF PARENTAL ALIENATION BY KISKA

DG - kids worries, what about you?

JK - I'm constantly engaged with police, CAS, lawyer, safety planning, my life is twisted, it's a circus, even though I do not respond to the communication it's hard, been at it for 6 years, starts to get to you, I'm working, I keep it as normal as I can, it take's it's toll.

DG - what is the concern if you or kids engage with DM?

JK -

pg 38/49 LN 21-22

"She's Kidnapped them twice, 2015, Jan 2019, daughter held hostage in bathroom for a day and a half", *

police/CAS couldn't convince her, her parents couldn't convince her, she was convinced I was trying to take kids, I was just taking Sean to his first spinning class, there's been reference she wanted to take kids to USA, risk she'll take the kids, don't know what would happen, ...

* If true, then why no arrest?

PG 38/49 LN 26

"more and more I'm concerned for my own physical safety";

* Moore has ZERO history of violence

in coming weeks CAS putting documentation we're seeking full and permanent custody on my behalf, where does it end?

DG - her mental health issues?

JK - LN 30-31

"yes, she's been diagnosed with bipolar, paranoia, dillusions, schizo affective disorder";

*RIDICULOUS

took her to hospital before and she said she was seeing license plate anagrams, she's been talking to my mom who's been passed for years, she said she was hearing voices, I think she doesn't believe she's ill.
