Reporting to the Manager, Financial Planning and Analysis, the Financial Analyst / Senior Financial Analyst* is part of a collaborative team of professionals, working closely together to provide analysis and insights into the results of Brookfield Renewable's North American power business for both management reporting purposes and strategic decision making. Brookfield Renewable owns and operates one of the world's largest renewable power portfolios, including more than 250 facilities in North America, Latin America and Europe anchored by more than 215 hydroelectric facilities.

Responsibilities:

The Financial Analyst / Senior Financial Analyst* will be responsible for:

- Analysing financial results and forecasts, highlighting variances, anomalies and identifying trends
- Reviewing performance of assets relative to key performance indicators, including internal budget assumptions and underwriting assumptions
- Reviewing capital expenditure project spend to ensure alignment with budget and investment strategy
- Synthesizing results to convey financial highlights for monthly management reporting
- Liaising with the Operations, Generation Asset Management, Market Research and Energy Marketing teams to update monthly forecasts for revenues, operating costs and capital expenditures
- Providing support to Capital Markets, Valuations and Business Development functions on various initiatives, as required by specific transactions or projects
- Preparing financial models as required to assist in investment decision making
- Preparing reports and analysis of results from complex power trading and marketing initiatives
- Preparing the annual revenue budget, including the trading and marketing budget

Requirements:

- A minimum of 3 years (Senior Financial Analyst) of relevant work experience*;
- Undergraduate degree in Accounting, Finance or an MBA
- A Professional designation (CFA, CPA) is considered an asset;

Technical Competencies:

- Solid analytical skills with strong attention to detail;
- Excellent written and oral communications skills;
- Well organized and ability to synthesize and conceptualize complex ideas;
- Self-motivated with demonstrated initiative;
- Heightened interpersonal and influencing skills;
- Able to meet multiple objectives in a dynamic, fast-paced, team environment;
- Advanced knowledge of MS Excel (financial modelling) and MS PowerPoint (presentations);
- Knowledge of IFRS and financial reporting considered an asset
- Experience in power & utilities would be an asset
- Able to travel (meetings with operating teams and site visits) Bilingual (English and French) would be an asset

*The level of this position (Financial Analyst/Senior Financial Analyst) will be determined based on the profile of the successful candidate.

Job Description

Reporting to the Director Finance, Finance Decision Support Analysts add value by working with Decision Support Advisors as an integrated team focused on continuous improvement. The Decision Support Analyst provides planning, budgeting, forecasting, financial and performance measurement, verification, analysis and reporting services to the Director Finance and Regional Decision Support Advisors through the use and maintenance of financial systems, processes and tools. Works with the Advisors to develop operating plans and budgets that are consistent with corporate direction and integrated with Regional and National plans.

The Director's regional team supports business leaders to anticipate, understand, lessen or prevent risk, and to identify, evaluate and develop business opportunities, solutions and improvements. The Decision Support Analyst is the team's Finance resource for maintenance and integrity of financial data, information, and tools including the Change Management Model (CMM), Khalix, standard reports, planning and budgeting.

Job Responsibilities

- Provides planning, budgeting, forecasting, analysis and performance monitoring services to the region in accordance with corporate processes and standards.
- Provides a clear communication of CPC's Corporate priorities and expected results to support their direct incorporation into Regional and National initiatives.
- Provides functional assistance, advice and service in the preparation, consolidation, justification analysis and review of operating and capital plans and budgets. Works with Regional and National Advisors as well as Process Owners to identify risks and opportunities to operating plans and budgets and ensures they are integrated with Head Office plans.
- Analyses volume/revenue and hours/dollars to ensure reasonable relationships between data to identify potential data integrity problems. Follows-up on corrective measures.
- Collects and maintains operational and costs statistics, developing historical trends, relationships, and other analytical tools for use and prepares interpretive analysis of reported data.
- Participates in the development and publication of instructions, forms, schedules and manuals updates in support of, use and understanding of Corporate policies, practices, procedures and reports, to the benefit of the Region and the Corporation as a whole.
- Acts as the central and coordinating Officer on all matters associated with maintaining the Change Management Model (CMM). Performs data entry, reconciliation and adjustments related to the CMM. Is the single point of contact in the region for CMM technical maintenance. Assures all work is done within established deadlines and requirements.

- Fosters the practice of sound financial and performance management practices by promoting responsibility and accountability for financial and operating results through the use and understanding of planning and control mechanisms.
- Provides input for the improvements in the planning, budgeting, forecasting and performance measurement systems and procedures. Identifies redundancies in data collection and reporting, and takes corrective action.

Job Responsibilities (continued)

- Maintains Khalix. Creates, develops and maintains appropriate files to link the CMM to Khalix. Performs data entry of regional budget, performs calculations, adjustments and co-ordination of internal and external budget transfers as required. Acts as the single point of contact in the region for Khalix maintenance (such as monthly refresh, downloads and uploads). Assures all work is done within established quality and deadlines.
- Acts as the prime contact, on the regional team of the Director Finance, for SAP procedures to carry out finance processes. Supports the team to ensure the efficient use of Finance SAP tools. Perform analysis and investigation of regional data to improve quality and accuracy of the information.
- Uses standard software (such as Excel & Lotus spreadsheets program, Access database program and Power Point), financial tools and systems (such as CMM and Khalix) to produce and distribute summaries and reports as required on a regular weekly and monthly scheduled basis. Produces ad-hoc reports on financial results such as trends analysis, graphics, KPI, burn rates and operating initiatives as required by the Decision Support Advisors or Director Finance for analysis and presentation related to ongoing cost and revenue, projects and initiatives. Ensures data integrity and completeness for all reports/information produced.
- Provides planning and accounting support to the budgeting and investment processes. Provides and validates data, carries out financial cost/benefit analysis to be used in conducting financial evaluation and assessment of new business and/or customer opportunities, new product pricing, or cost evaluation initiatives.
- Issues internal order numbers to Operators according to Corporate processes for I/O cost allocation. Controls capital budget for Perform and Administration equipment.
- Support the production of closeout and post-evaluation reports for Regional and National initiatives, including financial calculations to evaluate benefits realized. Such reports involve the calculation of financial indicator such as return of investment (ROI), discounted payback, etc.
- Ensures continued self-development by maintaining and enhancing knowledge of financial tools and techniques (policies, rules, instructions, systems), corporate data and information sources, and business processes and operations.
- Applies the principles of Business Excellence and Process Management within the team and champions these in dealings with others.

- Have strong skills for doing financial analysis. Has very good knowledge of software in order to facilitate and simplify data analysis and minimize data entry.

Qualifications

Education

- University degree in a business related field (e.g. commerce, finance, economics, accounting, business administration).
- Accounting designation (CPA, CA, CMA, CGA) would be an asset.

Experience

- Minimum of 2 years experience in a finance or accounting environment;
- Minimum of 2 years experience in analyzing and reporting of financial information;
- Strong knowledge of International Financial Reporting Standards, accounting policies and Internal Controls over Financial Reporting;
- Experience using SAP and its corresponding applications, or a similar ERP system, an asset.
- Experience within a Real Estate Finance role is an asset

Other Information

Other candidate requirements:

- Strong analytics and data manipulation skills;
- Strong MS Office skills (Excel, Word, PowerPoint, Access, Outlook, PowerPivot and SharePoint);
- Sound organizational skills and strong attention to detail;
- Strong Business acumen, negotiations skills, and relationship building skills are essential to this role;
- Strong communications skills, both oral and written.

CARE
Finance Officer

Nous apprécions l'intérêt que vous portez à CARE Canada et vous souhaitons bonne chance dans votre recherche d'emploi.

Cordialement,

Finance Officer, Contract Management Unit

📍 OTTAWA | PANAMÁ

CARE Canada is currently seeking a **Finance Officer** for its Contract Management Unit.

CARE Canada's Finance Officer will perform general accounting and administrative functions to meet operational and contractual requirements that support the effective management of various humanitarian projects. This position specifically is accountable for monitoring the financial progress of projects, investigating variances, reviewing project expenditures and ensuring that project billings are issued and payments collected and processed. This position is based in Ottawa, but international travel will be required (a valid passport will be required). This position will report directly to the Director, Country Office Financial Analysis and Risk Management, and will work alongside other financial staff in CARE Canada. It is based in Ottawa, but international travel will be required.

What you offer:

- University degree in Accounting
- An ability to readily see the financial and reporting implications of the terms and conditions in donor contracts
- A thorough understanding of budgetary processes, variance analysis and accounting processes
- A good appreciation of the need to provide timely and reliable information to senior management and to donors
- Ability to explain financial concepts to non-finance personnel in a simple manner, without the technical / accounting jargon
- Strong computer skills specifically in Excel, Access database, Outlook and the Windows operating environment
- Willingness and ability to travel (a valid passport will be required)
- Excellent oral and written communication skills in English

What would make you extraordinary (Assets)?

- Professional accounting designation (i.e. CA, CMA, CGA)
 - Fluency in French and/or Spanish
 - Experience working for an International non-government organisation (INGO)
 - Strong knowledge of Microsoft Access, Visio

What we offer:

- Generous leave entitlements, including December holiday closure;
- Full benefits: dental, medical, vision care, paramedical, life insurance (some exceptions may apply) and professional and confidential Employee Assistance Program services;
- Flexible work hours and a work from home policy;
- Central location which is close to popular amenities, public transportation routes, free parking;
- International travel opportunities;
- Learning and development opportunities, and specialised training;
- A family friendly environment;
- Business casual four days per week, Jeans Fridays;
- Onsite BBQ and shower facilities.

About CARE

Founded in 1945, CARE is a leading international humanitarian organization fighting global poverty. In over 80 countries, CARE works with the poorest communities to improve basic health and education, enhance rural livelihoods and food security, increase access to clean water and sanitation, expand economic opportunity, help vulnerable people adapt to climate change and provide lifesaving assistance during emergencies. CARE places special focus on working alongside women and girls, living in poverty, because, equipped with the proper resources, women and girls have the power to help whole families and entire communities escape poverty.
