Mr. Thomas Quatroche,

re: Financial Gain — the second requirement for human trafficking

Omigosh! ECMCC's Billing Department said that my bill was at \$65,851.70 as of April 14th. Obviously, you will not be seeing a dime of that, Mr. Quatroche. This leaves only one question: what is motivating

- a) your Zone S-2-positioned individuals,
- b) your psychiatrists¹ and
- c) your clearly complicit NYS ECSC judges²

to forcibly detain and illegally drug a healthy, 59 year-old Canadian woman? What inspired the slander and libel that stated she was homeless and a danger to her self and others?

There can only be a few possible motivations:

- a) they required a trial subject³ that was free from addiction and drugs (including Rx) in my demographic,
- b) they are part of the criminal network that I have been exposing via my websites, www.twb.rocks and www.pfi.rocks, and/or my Twitter account @CaeTalk at www.X.com since 2019 and/or
- c) they are criminally insane and enjoy watching how psychotropic drugs affect people.

When your Dr. Michael T. Guppenberger testified to the NYS ECSC on 20250409 that I would be a "danger to others" if released, was he referring to the criminal network noted at b) above? ^{3,4}

Mr. Quatroche, in my letter to you of 20250410, I informed you that I would provide my EO & MOS of ECMCC's medical records and petition documents next. Sadly, time constraints — given denial of access to a photocopier, computer or printer; plus, my need to prepare for multiple court proceedings — prevent me from providing to you the enumerated versions of ECMCC's libel. So, you'll have to figure that out; or, encourage Zone S-2 to end their restrictions.

This being letter one of series two, I remain waiting for your reply/replies.
