

May 21, 2025

Erie County Medical Center Corporation
462 Grider Street
Buffalo, New York 14215

Dear Dr. Thomas Quatroche,

re: ECMCC's Zone 5-2's Incompetence, Negligence and Criminality

I was detained in Zone 5-2 of your facility from Thursday, March 22, 2025 to Wednesday, April 30, 2025 and the experience was horrific. I did everything I could to seek assistance: there was none anywhere to be found. Below is a chronological summary of events that refers to **28 exhibits** including typed copies of my previous correspondence to you at Exhibit **AB**. I would like to meet with you as soon as possible to discuss, among other things, that which I have uncovered and evidenced regarding Erie County Medical Center Corporation ("ECMCC") Zone 5-2's incompetence, negligence and criminality.

Chronological Summary of Events:

1. On **20250313**, I returned to Buffalo, New York to:
 - a. collect some research for a follow-up article on the disgusting reality that is the vaping industry: see 2019 article at <https://twb.rocks/upig/media> and
 - b. glean interest from Americans for my upcoming "twb.ROCKS Investigative Journalism!" contest: see announcement at <https://twb.rocks/upig/contest/announcement>.
2. On **20250320**, following a week of continued delays and persecution from my home province of Ontario (see partial whistle-blowing details at <https://twb.rocks/archives/y2025/m202503>), I thought it would be wise for me to obtain a U.S. version of my **unfilled**, Canadian prescription for a CNS-depressant. Accordingly, I approached the Buffalo General Medical Center; however, they stated that they had no capacity to assist me and **must** detain me in order to effect a transfer

elsewhere. By midnight, I was transferred to ECMCC at 462 Grider Street (and forced to endure its C.P.E.P. unit for over 41 hours).

3. On **20250322**, I was transferred to ECMCC's Zone 5-2 by approximately 17:00.
4. On **20250324**, at approximately 11:59, a woman named Brenna Fox ("Fox") approached me to discuss my reasons for being at ECMCC. However, as:
 - a. lunch had just been served,
 - b. we were in a crowded dining room (inappropriate for such a personal discussion) and
 - c. Fox admitted that "[she] had not yet reviewed [my] chart",our meeting was adjourned on consent.

Then, Fox drafted her Treatment Over Objection Evaluation ("TOOE", see Exhibit **A**) **22 hours prior to our first clinical interview.**

5. On **20250325**, at approximately 10:53, Fox and I met for just over half an hour: she in no way indicated that she had already produced a TOOE and merely stated that "[I] had given [her] a lot to think about". (As she revealed that she was from Alberta, Canada, in addition to describing my whistleblowing and investigative journalism initiatives, I discussed with Fox some of the plans being announced by:

- a. Klaus Schwab's World Economic Forum and
- b. Policy Horizons Canada (see <https://twb.rocks/policy-horizons> and Exhibit **B**).

By 16:18, Fox and some psychiatrist named Michael T. Guppenberger had signed a 7-page Behavioral Health Treatment Plan ("Plan") laden with such a severed degree of error, omission and malicious obfuscation ("EO&MO") that one can only conclude I was not their first or only target. Their Plan is included as Exhibit **C** and my EO&MO Analysis of their Plan is included at Exhibit **D** and published at <https://twb.rocks/blank-00/living/safety/ecmcc/thomas-quatroche>.

6. Somewhere between **20250325-27**, ECMCC "Risk Analyst" Martha Mumbach ("Mumbach") issued a petition so that "Treatment Over Objection" could be court ordered (see ***undated*** documents labelled "Petition" and "Verification" at Exhibit **E**).

7. On **20250326**, without ever meeting me, Zone 5-2's psychiatrists Michael T. Guppenberger ("Guppenberger") and Yogesh D. Bakhai ("Bakhai") signed the Affirmations that were used to obtain a court order enabling ECMCC's without-fully-informed-consent, involuntary drugging of me with known toxins (see Exhibits **F** and **G**, respectively).
8. On **20250328**, a Zone 5-2 Nurse Nicole served on me:
 - a. Mumbach's Petition and Verification,
 - b. ECMCC's lawyer's (that is, Magavern Magavern Grimm LLP ("MMG")) 20250327 Notice of Petition and Affirmation of Service (see Exhibit **H**) and
 - c. Guppenberger's and Bakhai's Affirmations.Fox's 20250328 TOOE and Bakhai's 20250327 Chart Update (see Exhibit **I**) were *excluded* from the materials served on me. When I asked Fox where the missing documents were, she stated "you can start with those".
9. On Saturday **20250329**, Nurse Nicole served on me the final two documents of ECMCC's court submission¹: Fox's 20250324 TOOE and Bakhai's 20250427 Chart Update noted at para. 8 above: court was scheduled to occur on 20250402 and I had **zero** access to any legislation, case law/resources or any of **my** confiscated documents/evidence.
10. On **20250329** I attempted to comprehend the combined risk profiles of ECMCC's proposed drug combinations by contacting Internal Pharmacy (see letter at Exhibit **J**): they asked me not to contact them again.
11. I immediately wrote the outline for #twbROCKS #Article "Psychiatric Drug Cocktails: is fully-informed consent even possible?" (see copy of original at Exhibit **K**).
12. On **20250401**, Guppenberger breezed into my room for about 60 seconds. He wanted to know if I had any questions about court; but, he refused to address any of my prepared questions listed at <https://twb.rocks/wp-content/uploads/2025/05/20250401-12-Questions-for-ECMCC-Michael-Guppenberger.pdf> and included as Exhibit **L**.

13. On **20250402**, Given only 10 minutes to defend myself and with **zero** ability to serve or file documents, Paula L. Feroletto (“Feroletto”) chose to order the forced [drugging] of me based only on Fox’s, Bakhai’s and Guppenberger’s unsubstantiated libel and Guppenberger’s baseless, in-court slander. This, despite my reasonable request for an adjournment and a key witness: see Erie County Supreme Court (“ECSC”) order and my 2-page agenda for court at <https://twb.rocks/wp-content/uploads/2025/05/Moore-v.-ECMC-Court-Submissions-28.001-28.002.pdf> and included as Exhibit **M**.
14. On **20250404**, I attempted to comprehend Fox’s position/motivations; however, she ended our meeting before I could complete the interview. Then, I attempted to confirm her brief answers by handing to her a one-page letter, the list of questions (ie. my 20250404 Agenda) and my record of her initial answers. Despite my efforts (see Exhibit **N**), Fox refused to provide any meaningful response.
15. On **20250409**, I attended court **again** and Guppenberger lied, **again**. Also, MMG claimed that they had not received my Court Submissions #1-#3 even though I had a fax confirmation of a successful transmission (see Court Submissions Table of Contents at Exhibit **O** and fax confirmations at Exhibit **P**).
- Despite my stated grounds for a conditional adjournment (see Exhibit **Q**), ECSC’s Raymond W. Walter (“Walter”) reserved his decision and, **inappropriately**, handed to me his business card.
16. On **20250410**, Walter ordered the continuation of my illegal detention (and drugging): see ECSC court order at <https://twb.rocks/wp-content/uploads/2025/05/Moore-v.-ECMC-Court-Submissions-43.001-43.002.pdf> included here as Exhibit **R**.
17. On **20250414**, unbeknownst to me, a Canada-wide warrant was issued for my arrestⁱⁱ (see e-mail from the court included as Exhibit **S**).
18. **Fact**: As denials by the court et al. of key witnesses and third-party records rendered its ability to reach a “beyond-a-reasonable-doubt” decision of guilt on **any** of the Crown’sⁱⁱⁱ breach allegations

technically **impossible**, I should have been acquitted; now, however, I fear for my safety due to the risk of being apprehended and forced to endure an in-custody trial without access to **any** of my evidence.

19. On **20250421** Fox committed extortion by handing me a note that read: “[agree to ingesting lithium and you can be discharged]” (see copy of her note (marked-up) at Exhibit **T**). I was experiencing zero symptoms of psychosis, mania nor depression, however, I was forced to combine toxin haloperidol **with** toxin lithium while:

- a. having zero means to research the new, heightened, risk profile of this unwarranted, un-ordered drug cocktail and
- b. being able to dance circles^{iv} around Zone 5-2 staff intellectually, mentally, spiritually and, likely, physically.

20. On **20250422**, desperate to be relieved of the mental and physical torture that is ECMCC’s Zone 5-2, I consented to ingesting both the lithium and the haloperidol under duress. When Fox received my consent, she stated:

“[in addition to being psychotic and bi-polar, you are a narcissist with a Cluster B personality disorder]”.

As I wrote to you in my letter of that same day, **“your Nurse Practitioner [Brenna Fox] is criminally insane, Mr. Quatroche”**.

21. By **20250423**:

- a. the forced dosage of haloperidol had increased to 10 mg and
- b. my ECMCC hospital bill had reached \$86,269.39 (according to the ECMCC Billing Department).

22. On **20250424**, I was finally permitted to pay for my expired whistle-blowing/advocacy site www.twb.ROCKS; albeit, with a “redemption/late fee” of \$75USD/\$108.75 CAD (see Exhibit **U**).

23. On **20250425**, I wrote my 10th letter to you entitled “Petty Cash, Petitions and Processes” (see page 10 of Exhibit **Y**)
24. On **20250428**, I submitted a *scathing* 38-page package to Buffalo’s Mental Hygiene Legal Services’ David Lim in order to prepare for an appeal (see Fax Cover Sheet, Cover letter and Fax Confirmation at Exhibit **V**).
25. On **20250429**, ECMCC responded to my 20250425 letter with a 20250428 generic “To whom it may concern” letter signed by so-called Social Worker Marsha Reed, an individual previously complicit in *preventing* me from paying my bills (see Exhibit **W**).
26. On **20250429**, an individual for whom I neglected to record the name:
- approached me in my room,
 - accepted a copy of my scathing 38-page package noted at para. 24 above,
 - stated that they would forward it to “ECMCC legal” and
 - thanked me.
27. The **following day**, on **202501430** by 10:30, Fox had signed the discharge forms and the discharge planner announced that I would be leaving shortly: I was transported to the Gennsee Street “homeless” shelter by taxi at ~16:00 ... *without* the short-term prescription for a CNS-depressant (pm) that I sought 20250320.
28. On **20250501**, I contacted lawyer Lauren Konarowski and Ottawa’s Crown Attorney’s Office regarding my missed court appearance (see Exhibit **X**).
29. By **20250502**, I had finished scanning the hundreds of pages of testimony and evidence amassed against ECMCC’s Zone 5-2 and began to make plans to return to Ontario.
30. On **20250503**, I was temporarily detained by Canada Border Patrol Services because of the Canada-wide warrant issued for my arrest (as noted at para. 17).
31. By **20250518**, despite significant effort (see evidence published at <https://twb.rocks/domestic-terrorism/perpetrators/entities/ontario-court-of-justice/canada-wide-warrant>), I have been unable to have the warrant terminated/vacated/rescinded and have been forced to live like a fugitive.

Dr. Quatroche, I wrote to you **ten** times and provided **at least** 40 enclosures that evidenced the incompetence, negligence and criminality of ECMCC's Zone 5-2:

- a. on 20250406 with a letter entitled "[Systematized Plausible Deniability]" (with **10** enclosures),
- b. on 20250408 with a letter entitled "Beyond a Reasonable Doubt" (with **5** enclosures),
- c. on 20250409 with a letter entitled "Grandiose Allegations" (with **7** enclosures),
- d. on 20250410 with a letter entitled "Lawyers and Judges, Accountants (oh my!)" (with **7** enclosures),
- e. on 20250414 with a letter entitled "MH ECHKO Audit Results" (with **4** enclosures),
- f. on 20250416 with a letter entitled "Financial Gain—the second requirement ... human trafficking" (with **3** enclosures),
- g. on 20250417 with a letter entitled "Financial Losses, Site Down & "Fence is High" (with **3** enclosures),
- h. on 20250421 with a letter entitled "Fox's Ludicrous Discharge Plan",
- i. on 20250422 with a letter entitled "Fox's new threat re: lithium or no discharge" (with **3** enclosures) and
- j. on 20250425 with a letter entitled "Petty Cash, Petitions and Processes" regarding:
 - i. a refund of my \$75USD "redemption/late fee" and
 - ii. the responsibility for payment of what would be a \$100,000USD+ hospital bill caused solely by the incompetence, negligence and criminality of those associated with ECMCC's Zone 5-2.

See copies of letters (or the original drafts if copies of the finals have been lost) at Exhibit **Y** as well as type-written versions stored at <https://twb.rocks/blank-00/living/safety/ecmcc/thomas-quatroche>.

As clearly expressed multiple times, your Zone 5-2 has:

- **zero** legitimate oversight and
- **zero** accountability.

It is for this reason that it has been infiltrated by conscience-free sociopaths who literally could not care less about the safety or well-being of their patients. In addition, the actions and inactions of ECMCC's Zone 5-2 equate to, at a minimum, insurance company fraud.

Though the consequences of ECMCC's six weeks of incompetence, negligence and criminality continue to have a **severe** impact on me, I felt it was important to inform you, again, of the problem: I was **not** their only target and I have been made aware that their targeting of healthy individuals has continued since my departure. Accordingly, in addition to a refund of my \$75USD redemption/late fee, I am requesting:

1. payment of my existing ECMCC bill (\$104,389 less "self-pay discount" = \$19,299; see Exhibit **Z**) by your organization,
2. compensation for my six-week investigation^v of your Zone 5-2 and the resulting, undeniable evidence produced for your use,
3. termination (at a minimum), with cause, of the following ECMCC-positioned individuals:
 - a. Nurse Practitioner Brenna Fox,
 - b. psychiatrist Dr. Michael T. Guppenberger and
 - c. psychiatrist Dr. Yogesh D. Bakhai,
4. retention of consulting services (via my company SAQOTU Inc.) in order to assess:
 - a. the competency of your Zone 5-2 nursing staff,
 - b. the competency of your C.P.E.P. psychiatric staff,
 - c. the competency of individuals being considered to replace Bakhai, Guppenberger and Fox; and,
 - d. the effectiveness of the Occupational Therapy, Recreational Therapy and/or any other programs offered to ECMCC's so-called "Behavioral Health" patients; and,
5. provision of information to your Mayor, Governor and President of the likely participation of both Feroletto and Walter (and Magavern Magavern Grimm LLP) in Medicaid Fraud.

At a minimum, ECMCC's "Behavioral Hygiene" services are a class action waiting to happen, Dr. Quatroche: I am confident that I can assist you to implement change immediately in order to reduce the likelihood of such a potentially donation-crippling event.

I look forward to your prompt reply by e-mail.

Verily,

Deirdre Moore / Andee Jak
President, SAQOTU Inc.

Enclosures: **List of 28 Exhibits** and **Exhibits A-AB**

ⁱ Note the improper service of ECMCC's legal documents and lack of time/resources to properly prepare a meaningful reply.

ⁱⁱ I had important Ottawa-based legal matters that were scheduled for April.

ⁱⁱⁱ Ottawa's Crown Attorney's Office has been protecting my fraudster husband, John Kiska, by maliciously prosecuting me since 2019. Partial details are linked to the draft screenplay, #Mummygate, being stored at <https://twb.rocks/mummygate> and the new whistle-blowing page, "My Canada-wide Warrant", being stored at <https://twb.rocks/domestic-terrorism/perpetrators/entities/ontario-court-of-justice/canada-wide-warrant>.

^{iv} Were Brenna Fox's Zone 5-2-positioned accomplices simply envious? Or, were they being compensated to remain quiet about the drugging of a healthy whistleblower/independent journalist? What was motivating their participation in this scheme?

^v Among other things, I have been involved in process improvement since 1993. My résumé is viewable at <https://twb.rocks/about-us> and included as Exhibit AA.
