Good day,

I have been harassed, de-frauded, robbed and persecuted by taxpayer-funded individuals since, at least, February 2019. It not only continues, the severity has increased to the point that I am now in hiding, fearing for my safety, as I continue to publish evidence of their gross civil and criminal actions/inactions. Kindly confirm:

1. What sort of protection can your organization provide, especially if law enforcement has been complicit?
2. How does your organization define "wrongdoing"?
3. What are the specific "grounds" that deem a submission approved for investigation?
4. What is the analytical framework that is used for investigation?

I have evidence against over 400 individuals who are complicit in this network and 10's of 1000's of pages of evidence (which increases daily). What format shall I use to present the evidence that supports my allegations?
