Dear Karen Kimble,

re: Incompetence, Negligence &/or Crime

I apologize for spelling your name incorrectly in my 20250327 letter to you; and, I trust that error¹ was not the reason for your decision to not meet with me yesterday.

Ms. Kimble, I have been advised by multiple individuals that you are the "unit manager" through whom I must submit requests. Despite previous efforts, I remain without any of the seven items listed a) to g) in the second paragraph of my 20250327 letter; this, despite:

1. the rights proclaimed in your "Welcome to ECMC" s "Patients' Bill of Rights",
2. your nurse practitioner Brenna Fox's 20250327 ~11:15 statement that she would provide items listed at a) through d)² as referenced above
3. the fact that I am now forced to prepare for some "court" appearance allegedly scheduled for 20250402 to occur "down the hall around the corner"; and, likely,
4. New York State's Mental Hygiene Law.

Yesterday, I was provided with Ms. Fox's 20250325 BH-Treatment Plan³. It was laden with errors, omissions and [an alarming degree of] malicious obfuscation ("EO & MO") given the detailed testimony with which she was provided directly from me—the evidence of which could easily be⁴ obtained with small investments of time reviewing:

a) the documents confiscated on 20250320 by ECMCC and

b) my Twitter account⁴;

two things that Ms. Fox has refused to do. Instead, she claimed she reviewed one of my Instagram accounts (that I barely use) to update followers from afar.

Ms. Fox also refused to adjourn the 20250402 "court" proceedings so I could properly prepare; including, but not limited to, alerting my publishers⁵ (and Power of Attorney/health care agent) of my current predicament⁶. Furthermore, I have yet to be served any legal documents from ECMC despite them having already been filed with some "court". I am literally being prevented from defending myself against Ms. Fox's false allegations via intentional, systematized denial of access to documentation, legislation and evidence. In Canada, this would constitute multiple crimes; accordingly, please provide a copy of New York's Criminal Code as well.

Verily,

Keldie Moore

's Bill of Rights

As a patient in a hospital in New York State, you have the right, consistent with law, to:

1. Understand and use these rights. If for any reason you do not understand or you need help, the hospital **MUST** provide assistance, including an interpreter.
2. Receive treatment without discrimination as to race, color, religion, sex, gender identity, national origin, disability, sexual orientation, age or source of payment.
3. Receive considerate and respectful care in a clean and safe environment free of unnecessary restraints.
4. Receive emergency care if you need it.
5. Be informed of the name and position of the doctor who will be in charge of your care in the hospital.
6. Know the names, positions and functions of any hospital staff involved in your care and refuse their treatment, examination or observation.
7. Identify a caregiver who will be included in your discharge planning and sharing of post-discharge care information or instruction.
8. Receive complete information about your diagnosis, treatment and prognosis.
9. Receive all the information that you need to give informed consent for any proposed procedure or treatment. This information shall include the possible risks and benefits of the procedure or treatment.
10. Receive all the information you need to give informed consent for an order not to resuscitate. You also have the right to designate an individual to give this consent for you if you are too ill to do so. If you would like additional information, please ask for a copy of the pamphlet "Deciding About Health Care — A Guide for Patients and Families."
11. Refuse treatment and be told what effect this may have on your health.
12. Refuse to take part in research. In deciding whether or not to participate, you have the right to a full explanation.
13. Privacy while in the hospital and confidentiality of all information and records regarding your care.
14. Participate in all decisions about your treatment and discharge from the hospital. The hospital must provide you with a written discharge plan and written description of how you can appeal your discharge.
15. Review your medical record without charge and, obtain a copy of your medical record for which the hospital can charge a reasonable fee. You cannot be denied a copy solely because you cannot afford to pay.
16. Receive an itemized bill and explanation of all charges.
17. View a list of the hospital's standard charges for items and services and the health plans the hospital participates with.
18. Challenge an unexpected bill through the Independent Dispute Resolution process.
19. Complain without fear of reprisals about the care and services you are receiving and to have the hospital respond to you and if you request it, a written response. If you are not satisfied with the hospital's response, you can complain to the New York State Health Department. The hospital must provide you with the State Health Department telephone number.
20. Authorize those family members and other adults who will be given priority to visit consistent with your ability to receive visitors.
21. Make known your wishes in regard to anatomical gifts. Persons sixteen years of age or older may document their consent to donate their organs, eyes and/or tissues, upon their death, by enrolling in the NYS Donate Life Registry or by documenting their authorization for organ and/or tissue donation in writing in a number of ways (such as a health care proxy, will, donor card, or other signed paper). The health care proxy is available from the hospital.

Dear Dr. White,

Delay in further #UPIG materials

Much has occurred since my 10-package submission of October 2024. Fortunately, I managed to pre-publish all of the 20240913-20241101 evidence sent to you; and, ongoing displacement has enabled me to add ~~more~~ industries to what is now the #UPIG series¹. The twb.ROCKS Investigative Journalism contest that I sent to you in February, however, has been further delayed by shenanigans at the Canada Revenue Agency ("CRA")²: despite successful pre-launch interest in Ottawa and the Canadian Niagara Region, the March 21 launch³ proved impossible.

Currently in Buffalo, New York, most of my rights have been illegally stripped by a group of individuals positioned at Erie County Medical Center Corporation ("ECMCC") who are alleging that I require "treatment" for Bipolar Disorder due to "grandiose thinking".⁴ Their diagnostic process was laughable and their "treatment" is none other than zero-efficacy-proven, Tardive Dyskinesia-guaranteeing, dis-ease causing Haloperidol — a drug approved for the treatment of so-called Schizophrenia. A nurse practitioner named Brenna Fox made her bold, baseless allegations that my journalism was merely "grandiose thinking" and that "court will be next Wednesday". (As we know all too well, sociopaths protect one another and Ms. Fox is clearly protecting the interests of my impossible-to-divorce husband, John Kiska.)

Apparently, I'll be able to see ECMCC's court submissions and my chart tomorrow: I'll endeavour to make a copy and send that to you too. Trusting that all is well in your world,

Verily,
Heidi Moore

PS. Buffalo gang & mafia have made themselves known; however, the twb.ROCKS site is down for non-payment. I hope to have it back up by Tuesday so they can catch up.

Updated twb.ROCKS IT contest announcement (ECMCC staff refuse to return to me)
added 20250325 ECMCC BH-Treatment plan (7 pgs); placeholder for Kiska ownership & CRA documents (1 pg)

² See evidence-linked testimony at www.twb.ROCKS/domestic-terrorism/perpetrators/entities/CRA

³ See twb.ROCKS contest announcement at www.twb.ROCKS/UPIG/contest/announcement and hard copy enclosed, if ECMCC returns my documents/evidence

⁴ En route to check on the status of my CRA deposit, I attempted to get a prn for a CNS depressant at Kaleida hospital: that crew forced my transfer to ECMCC.
