

April 14, 2025 v3

Dear Dr. White,

re: Mis for Malpractice (a maim, manslaughter, murder)

It's been nothing but a flurry of nonsense, harassment and busy-ness since my letter of 20250405. Given the letter-less copies of materials that I have forwarded to you, I felt an "Evidence Distribution Tracking Sheet" was required. Please find one enclosed.

I have so much on which to update you that my next letter will likely be in point form! Suffice ~~it~~ to say, the ECMCC Zone 5 positioned individuals aren't even pretending to be a legitimate healthcare facility. Since the 20250403 1 mg of RISPERDAL[®], they have tripled the dose that I am forced to take without once asking me if I've experienced the states of disease¹ that:

a) they were expecting to occur:

- i/ extrapyramidal symptoms
- ii/ sedation
- iii/ headaches
- iv/ gastrointestinal disease
- v/ Metabolic syndrome and/or

b) they had acknowledged I had additional risk of experiencing:

- i/ Neuroleptic Malignant Syndrome (which is, potentially, fatal) and/or
- ii/ Tardive Dyskinesia (which is, potentially, irreversible).

They reached half of the FDA-approved maximum in 10 days with my only alleged psychotic symptom being "I think I'm important" and "I think Brenna Fox is a narcissist²". For the record, I have never stated or felt that I was important. Clearly, our Father is quite familiar with succession planning.

Anyhow, this short submission is simply to keep you informed of the current legal quagmire as I continue to fight for my bodily autonomy; also, note the major change that was published by multiple antipsychotic-agent manufacturers in January 2025. Zero medium- or long-term studies³ prior to FDA approval? It's another pharmaceutical/psychiatric industry elephant⁴ that requires exposure. What. A. Racket.

As always, I hope all is well in your world.

encl. Evidence Distribution Tracking Sheet,
Legal Tracking Sheet 2025, excerpt from
RISPERDAL re 5.6 Hyperprolactinemia,
Invoice for 20250402 transcript.

¹ See Brenna Fox's Treatment Over Objection Evaluation at 10.001 ² False. I think she's a full-blown sociopath, like Guppenberger

³ As we exposed re: INVEGA[®] during that month

⁴ The previous elephant described in article stored at 47.006 re "Psychiatric Drug Cocktails"

Verily,

Teildie Moore
