

Errors, Omissions & Malicious Obfuscation ("EO & MO") Analysis

re: 20250326 Affirmations of Drs. Yogesh Bakhai and Michael Guppenberger

Dr. Yogesh Bakhai ("Bakhai") — who breezed into my room on 20250326 for about 60 seconds with Mental Hygiene Legal Services ("MHLS") Case Analyst Darin Russell in tow — allegedly signed his Affirmation template¹ shortly after asking me his one question: "why are you refusing treatment?" My answer was simply: "show me the diagnostic process used by [ECMEC]".²

Bakhai's paragraphs 1-3 are irrelevant for this EO & MO Analysis; except, his para. 2 acknowledges the penalties for perjury.

4=E
& MO No one reviewed my records (eg. those confiscated 20250320) which could easily refute any allegations of mental instability; and, Bakhai did not examine me in that 60 seconds in front of Russell.

5=O This is a generic statement that lacks details of any fact whatsoever.

6=O
& MO This is another generic statement that simply inserts my name.

The so-called Affirmation of Dr. Michael Guppenberger ("Guppenberger") is the same nonsense. His paras. 1-3 are irrelevant; except, his para. 2 also acknowledges perjury.

4=O
& MO Guppenberger breezed into my room for the first time on 20250401, refused to address any of my prepared questions (see 22.001) and breezed out within 60 seconds.

5-7
O & MO These three paragraphs are merely additional generic statements: my name was literally typed in as an afterthought.

¹ See Moore's Court Submission pages 6.007 - 6.008

² because, clearly, there isn't any legitimate diagnostic process at all

³ See Moore's Court Submission pages 6.009 - 6.010
