Re: A Warning about the Human Trafficking Operation in Canada's Capital

This letter is to inform you that the city in which you reside is a hub for **multi-faceted** human trafficking where no one¹ is immune. The network's tactics are incredibly covert ... and OPSB/court enabled². The pages that follow include links to evidence that are in various stages of publication due to Ottawa's intentional terrorization of me. After all, criminals do not like to be caught³.

The term "corruption" does not begin to describe that which is transpiring in Ottawa. If you are not yet aware, aside from its covert human-trafficking networks, it is rolling out nationwide policies from which Canadians will never recover⁴.

If you are in a position to do so, please warn friends and family: this group keeps its victim pipeline humming at **every** level⁵. And, while everyone remains distracted attempting to keep up with shrinking job markets, insufficient housing solutions and widespread inflation, most remain oblivious to Canada's advancement of Agenda 21⁶.

Finally, don't bother attempting to report anything to Mayor Mark Sutcliffe or any City of Ottawa Councillor: they are all complicit in the cover up⁷: it's what keeps Ottawa's Symbiotic Economy growing. Ottawa—it's not the sleepy government town that you thought it was.⁸

Verily,
