Dear "Inmates" of Dorms 2

re: Yesterday's Performance

I know that you know that I am a Targeted Individual ("TI"). What you may not know is that:

1. Early in 2017, I began noticing the Technology-assisted Stalking & Harassment ("TASH") including, but not limited to:
  - a) iPhone-deployed techniques using various Applications such as iTunes, Voice Memo and Message,
  - b) Netflix streaming (eg. following a show, recommendation is "Better call Saul"<sup>1</sup>),
  - c) YouTube streaming: a thinly-veiled sequence of songs intended to mock me<sup>2</sup> and
  - d) YouTubers deploying directed conversation (see 2. a) below) via two-way, big-screen devices.

2. Later in 2017, I began to recognize (and document) the many feet on the street ("FOS") techniques including, but not limited to:

- a) directed conversation,
- b) street theatre,
- c) brighting,
- d) home/car invasion (for gaslighting-to-induce-psychotic-break purposes),
- e) Raspberry Pi-assisted hacking of devices<sup>3</sup> and
- f) blue-jacking/blue-fishing.

An excellent description of these and more can be found at:

[www.pfi.rocks/gang-stalking](http://www.pfi.rocks/gang-stalking)

3. Throughout 2018, I became more aware of stalking-by-license-plate (eg. COFFIN (Coffin), POA SM (Power of Attorney, Sarah Merritt<sup>SP?</sup>) while simultaneously being "informed" that I was "in training"<sup>4</sup>.

4. Late in 2018, I was compelled to purchase a Jack White CD: I thought he was some kid in Toronto who played guitar — more later.

5. Early in 2019, I received an anonymous e-mail which included a research paper on "gang-stalking"<sup>5</sup>, a term of which I had never heard: it posited that society is approximately 49-51% GSI-mal and the remainder are T/S (see the Gospel according to St. Matthew C13 v 24-30).

6. By the end of March 2019, I was using the term "Barney" to identify/label GSI-mal positioned to overtly harass/provoke me and the term "Bowler" to identify/label GSI-mal positioned to deceive me by posing as some undercover ally. "Hybrids" switched back and forth — likely, due to terrible direction (debatable).

7. Early in 2019, when my children, Sean Charles Kiska and Cate Stella Kiska ("Sean & Cate"), were court-napped by the DPS-CAS-SCJ triumverate, I knew I was part of a "disassemble the CAS" operation.

8. Mid-2019, while travelling throughout the United States ("U.S."), I met someone who told me about the "language" of cant used by common thieves during the "1700s". I also realized that Jack White ("White") was a TI by:
- listening to the new The Raconteurs release,
  - seeing White's "Seven Nation Army" listed below Nick Drake's "Pink Moon" on a ConsequenceOfSound Top Songs list,
  - the lack of selection process and understatement of accomplishments for/at his 2019 Wayne State University ("WSU") doctorate award ceremony<sup>6</sup>,
  - the skimming likely occurring at one of his companies, Third Man Records ("TMR") via some duplicate sales/accounting system,
  - internalized concert-ticket skimming (that decreased attendance) and ...
  - back-stabbing "bandmate" Brendan Benson's Twitter account<sup>7</sup>.
9. Meanwhile, during May 2019, pfi.ROCKS was brainstormed by GSI-ben<sup>8</sup> as I snuck into the American Psychiatric Association's Annual Meeting<sup>9</sup> as an exhibitor with one of my companies, SAQOTU Inc., in order to get dirt on the psychiatric industry.
10. By December 2019, Brendan Benson ("Benson") had taught me all I need to know about GSI-mal bidding for TI contracts via the use of emojis<sup>10</sup>. Alerting teams (or, more accurately, terrorist cells) of new TIs is easily done via tagging on Instagram posts (for example). I also realized<sup>11</sup> that CNN articles contain instructions for GSI-mal cells via their version of cant and chosen/altered photography.
11. 2020 — I travelled from March to September during the international lockdown: Veracruz → Havana → Madrid → Dublin → Toronto → Playa del Carmen → Atlanta → Seattle → Anchorage<sup>12</sup> → Cheektowaga<sup>13</sup> → St. Catharines → Ottawa until re-arrested; but, released with my first GPS-monitoring ankle bracelet. Highlights of 2020 included:
- exposing how IP Addresses were used by GSI-mal to organize cells, internationally<sup>14</sup>, as well as structure communications<sup>15</sup> (20200812) and
  - exposing Apple's "PhotoShop" and IMDb.com<sup>16</sup>.
12. By April 2021, once I started evidencing more judicial involvement in GSI-mal, SAQOTU Inc.'s www.pfi.ROCKS site was forcibly removed from public view via another OPS-Crown-Bench "catch & release" event.
13. By August 2022, I had fled to St. John's to re-build the site and involve non-Ottawa-based law enforcement.<sup>17</sup>
14. September 2023, I landed back in Ontario without any meaningful financial cushion<sup>18</sup>. From Niagara Falls, I:
- documented how the shelter system had been infiltrated/captured by organized crime in the Niagara Region and
  - shared Policy Horizons Canada<sup>19</sup> plans with biker gang(s), local businesses, international tourists and immigrant students.

15. By March 2024, I published evidence which incriminated several more psychiatrists in both St. Catharines and Ottawa, as well as exposed so-called shelter Montfort Renaissance<sup>20</sup> as merely part of Ottawa's human-trafficking syndicate. (distracted by "ammonia incident"; see J20240618 at 1200-1400)
16. By June 2024, evidence of OCDC's involvement was circulated via my 100+ day mail campaign that included #KaraokeCover, #Puzzle<sup>21</sup> and #Article outlines<sup>22</sup> designed to raise awareness via dark humour ... with a sense of urgency<sup>23</sup>.
17. June 5-15: my 10-day marketing blitz netted evidence of infiltration/capture at the Shepherds of Good Hope; but, more importantly, a hint of what could be in store for the Satanic Build Back Better capital of Canada - Ottawa:
- Beastiality Boulevard (Sussex = Sus sex? (su = pig in Greek or Hebrew?))
  - Prostitute Promenade (Rideau = curtain?)
  - Multicultural Mile (after "Cummings Bridge", Montreal (my trial?))
- Accordingly, yesterday's display was neither unusual nor impressive, just typical & expected

### Facts

Here are a collection of facts, followed by a collection of beliefs, that you may want to consider as you re-assess your options:

1. The Holy Spirit moves in mysterious ways? Perhaps. He also uses:

- directed observation,
- selective hearing & directed listening,
- heightened "intuition" and
- the Bible (eg. Your "random opening + assisted interpretation" when trying to make a difficult decision);

} imperfect choice of words and easier to describe verbally

at least, those are most of His techniques of which I am aware (so far).

2. I don't control the timing of "my work". For example, while I suspected SGT Room L's "Valerie & Marveilleux" GSI-mal team fairly quickly, He "prevented" me from alerting them that "I know" until exactly when I did<sup>24</sup>: Saturday, June 15<sup>th</sup> from ~18:00-18:15. And, within six hours, I was re-arrested.
3. I don't "predict" anything: I do try to interpret obvious-to-me symbolism and/or messaging with various degrees of success (see AJ.204 Letter to Senator Kim Pate, #pfi:ROCKS #KaraokeCover pfi.PDSI? "Fence" is High and #Article outline pfi.ADSI? "Sell Recommendations" — collectively, a mosaic piece suggesting possible, upcoming, severe market manipulation).
4. I am just a scribe, an announcer and/or a distraction. Eliminating me does nothing to the momentum of GSI-ben as He, clearly, is familiar with the concept of succession planning (see the third book of Moses, Deuteronomy: Chapter 34 Verses 5-9).

5. My background includes software development, marketing and business analysis. Your syndicate's system has been reverse-engineered and re-developed with altruistic purpose.
6. My injuries sustained are due to my 2024/0605-15 tireless marketing of said re-designed system. (His "adrenalin" is one heck of an anaesthetic!)

### Beliefs

1. As you are likely aware, in Ottawa, Duty Counsel + Crown + Bench = Circus Theatre designed to present the illusion of a legal-judicial system to unsuspecting TIs. It will be easy to disassemble: the entire process can be outsourced via Zoom immediately to remote, non-captured courthouses.
2. Some of you may be "Serpent Seed" (see Moses' Book of Genesis Chapter 3 Verse 14) and some of you may have merely transitioned into sociopathy (see AJ.315).
3. Some of you are possessed: enough demons have used you to speak to me while detained here to be 100% certain of that.
4. Genius = gen - l - us → it is Luciferian mockery to distract us from realizing that  $EQ + CQ > (\text{individual}) IQ$  where
 

EQ = Emotional Quotient,	}	measurements of proficiency
CQ = Communication Quotient		
IQ = Intelligence Quotient		

Accordingly, sociopaths are — by default — severely "disabled" compared to aware (or even semi-aware) empaths. This brings us to the crux of this spiritual war and the reason why we find ourselves here: you are driven to destroy me and I am driven to help save you.

5. There won't be any Indigenous invited to the "Multicultural Mile" retail strip east of the Rideau River — at least, that's what **they** are planning.
6. Recent acquisition by First Nations of child abduction rights just doubled CAS capacity ... for the World Economic Forum Agenda 21's benefit. The parasitic-predator class are using "lower-level" sociopaths as minions who will build the systems required for their own enslavement.

### Conclusion

1. Don't bother threatening me or inviting me to join GSI-mal with some mis-timed "you're welcome" / "door's open": I'm not remotely interested.
2. You were placed here for 2 reason (see draft at [www.pfi.rocks/swimlanes](http://www.pfi.rocks/swimlanes)). What you choose to do next is up to you.
