

The Weaponization of Main-stream Media (Part I: MSN Newsfeeds)

Hypothesis: Main-stream Media is weaponizing local gangs/mafias/cartels to target “truthers”.

Example: Excerpt from 20260925 mid-day MSN Newsfeed > [https://www.msn.com/en-us/news/other/we-re-not-hearing-the-truth-luke-russert-blasts-pentagon-concealment-of-info-in-trump-s-iran-war/vi-AA2cVOMQ?ocid=msedgdhp & pc=U531 & cvid=6ab6bdac462f4ccc82848eb320d9ec42 & ei=109](https://www.msn.com/en-us/news/other/we-re-not-hearing-the-truth-luke-russert-blasts-pentagon-concealment-of-info-in-trump-s-iran-war/vi-AA2cVOMQ?ocid=msedgdhp&pc=U531&cvid=6ab6bdac462f4ccc82848eb320d9ec42&ei=109)

1. Possible components:

- a) Core Directory: <https://www.msn.com/en-us/news/other/>
- b) Generic-story sub-Directory: [we-re-not-hearing-the-truth-luke-russert-blasts-pentagon-concealment-of-info-in-trump-s-iran-war/](#)
- c) Unit-specific headline “We're not hearing the truth': Luke Russert blasts Pentagon concealment of info in Trump's Iran war”
- d) Unknown variable 1: [vi-AA2cVOMQ?ocid=msedgdhp](#)
- e) Unknown variable 2: [&pc=U531&](#)
- f) GSI-mal crew ID & Target ID: [cvid=6ab6bdac462f4ccc82848eb320d9ec42&ei=109](#)

2. Possible de-code:

- a) IF:
 - GSI-mal crew ID is 23 characters (eg. 123.FGHJK.4567.AB12.ABC.123D) and
 - Target ID is 9 characters (eg. 555.W55.0EE)
- b) THEN:
 - ID for Deirdre Ann Moore 28-SEP-65 could be Target ID of 320.d9e.c42,
 - ID for Northeast Nashville GSI-mal could be 6ab6bdac462f4ccc82848eb and
 - Estimated time of planned “news-worthy” incident (eg. death, accident, disappearance) could be stated with “&ei=109” where ### = [some 3-digit code]
- c) ELSE:

The internationalized, domestic-terrorist networks described at <https://twb.rocks/gang-stalking> are using the MSM story headlines and respective urls in a different manner.

Credit for this possible decode of a currently-deployed method of communication used by Gangstalk International (“GSI-mal”) goes to a GSI-mal participant. I suspect this individual has been assigned to spread a [half-truth] in order for the Target(s) (ie. me, my children and/or others) to be injured, murdered and/or otherwise silenced because the Target(s)’ altruistic goals **severely** impede GSI-mal’s covert, malevolent “long game”.

GSI-mal’s “long-game” may be gleaned from draft Karaoke Cover tune “**Chillin’ Pools, Data Czars**” being published at <https://twb.rocks/mummygate/rolling-credits/chillin-pools-data-czars>.

Note: Any interpretation of the field label codes would be purely speculative without access to the database schema. Actual link used for this example is <https://www.msn.com/en-us/news/other/we-re-not-hearing-the-truth-luke-russert-blasts-pentagon-concealment-of-info-in-trump-s-iran-war/vi-AA2cVOMQ?ocid=msedgdhp&pc=U531&cvid=6ab6bdac462f4ccc82848eb320d9ec42&ei=109>.
